Board of Land and Natural Resources  
State of Hawaii  
Honolulu, Hawaii  

PSF No: 12MD-061  
Maui  

Amend Prior Board Action of May 25, 2012, Item D-8, for the Consent to Assign Grant of Non-Exclusive Easement No. S-5798, Frederic W.C. and Mary F.C. Constant, Assignor, to Maui Happy Place, LLC., Assignee; Amendment of Grant of Non-Exclusive Easement No. S-5798 to Allow Easement to Run with the Land Identified as Tax Map Key No.: (2) 2-1-006:006 situate at Honuaula, Makawao, Maui, Further Identified as Tax Map Key: (2) 2-1-006:Por. 098, and Add the Requirement for Increased Liability Insurance Limits.

BACKGROUND:

The Land Board at its May 25, 2012 meeting, under agenda item D-8, approved the Consent to Assignment of Grant of Easement S-5798 from Frederic W.C. Constant and Mary F.C. Constant, as Assignor, to Maui Happy Place, LLC, Assignee. This board action also provided for the amendment of the Grant of Easement S-5798 to run with the land and inure to the benefit of the real property described as Tax Map Key: (2) 2-1-006:006.

REMARKS:

Grant of Easement S-5798 was issued to Frederic and Mary Constant on February 26, 2006. This easement required a general liability insurance limit of at least $300,000.00 for each occurrence and $500,000.00 aggregate. In 2010, the State of Hawaii, Department of Accounting and General Services began the process of standardizing the insurance requirements for the use of State facilities and grounds. To achieve this standardization, minimum insurance requirements were increased. The current contract language now requires a comprehensive general liability insurance coverage with higher limits of at least $1,000,000.00 for each occurrence and $2,000,000.00 aggregate.

As this is the case, the office of the Attorney General has advised the necessity for a board amend to correct the insurance requirement in the assignment of Grant of Easement S-5798.
RECOMMENDATION: That the Board:

1. Amend its prior Board action of May 25, 2012, under agenda item D-8 by adding requirement that the Grantee shall carry comprehensive general liability insurance with limits of at least $1,000,000.00 for each occurrence and $2,000,000.00 aggregate, and with coverage terms acceptable to the Chairperson of the Board of Land and Natural Resources.

2. All terms and conditions listed in its May 25, 2012 approval to remain the same.

Respectfully Submitted,

ASSIGNEE:
Place of business registration confirmed: YES x NO
Registered business name confirmed: YES x NO
Good standing confirmed: YES x NO

REMARKS:

On January 10, 2003, the Board of Land and Natural Resources, under agenda Item D-26, (attached as Exhibit 1) approved the issuance of a term, non-exclusive easement to Frederic W.C. and Mary F. C. Constant, covering the subject area for rock wall purposes.

A warranty deed, dated December 14, 2011, transferring the private property (parcel 006) from the Constant's to Maui Happy Place, LLC confirms the sale and transfer of the property.

Staff is requesting approval to amend the existing easement to be transferred to the new property owner for the previously Board approved purposes and remaining 21 years of the original 30 year non-exclusive easement.

The easement shall expire on January 9, 2033.

General Lease No. 5798 is an older term non-exclusive easement instrument that requires the Board's approval prior to assignment of the easement. Staff is recommending that General Lease No. 5798 be amended to state that the easement will run with parcel 006, provided that subsequent assignees are specifically apprised
of the insurance requirement in writing. This will eliminate the need for Board action on future consents to assignment.

The applicants have not had a lease, permit, easement or other disposition of State lands terminated within the last five years due to non-compliance with such terms and conditions.

Refer to the previously approved Board submittal (Exhibit 1) for agency and community comments, which were solicited at the time of the original issuance of this easement.

The surrounding State parcel (098) is part of the Ahihi-Kinau Natural Area Reserve (NAR). The Division of Forestry and Wildlife, Natural Area Reserve - Maui, had no objection to the granting of the subject easement.

RECOMMENDATION:

That the Board:

A. Consent to the assignment of General Lease No. S-5798 from Frederic W.C. and Mary F. C. Constant, as Assignor, to Maui Happy Place, LLC, as Assignee, subject to the following:

1. The standard terms and conditions of the most current consent to assignment form, as may be amended from time to time;

2. Review and approval by the Department of the Attorney General; and

3. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State.

B. Authorize the amendment of Grant of Non-Exclusive Easement, GL S-5798, under terms and conditions cited above, which are by this reference incorporated herein and further subject to the following:

1. The easement shall run with the land and shall inure to the benefit of the real property described as Tax Map Key: (2) 2-1-006:006, provided however: (1) it is specifically understood and agreed that the easement shall immediately cease to run with the land upon the expiration or other termination or abandonment of the easement; and (2) if and when the easement is sold, assigned, conveyed, or otherwise transferred, the Grantee shall notify the Grantee's successors or assigns of the insurance
requirement in writing, separate and apart from this easement document;

2. Authorize the subject requests to be applicable in the event of a change in the ownership of the abutting parcel described as Tax Map Key: (2) 2-1-006:006, provided the succeeding owner has not had a lease, permit, easement or other disposition of State lands terminated within the last five (5) years due to non-compliance with such terms and conditions.

3. Review and approval by the Department of the Attorney General; and

4. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State.

CURRENT USE STATUS:

Encumbered by Executive Order No. 2668 to the Department of Land
and Natural Resources for the Ahihi-Kinau Natural Area Reserve.

APPROVED BY THE BOARD OF
LAND AND NATURAL RESOURCES
AT ITS MEETING HELD ON
CHARACTER OF USE:

Rock wall purposes.

COMMENCEMENT DATE:

To be determined by the Chairperson.

LEASE TERM:

Thirty (30) years.

CONSIDERATION:

One time, lump sum payment to be determined by independent or staff appraiser, subject to review and approval by the Chairperson.

CHAPTER 343 - ENVIRONMENTAL ASSESSMENT:

The existing rock wall, including the portions that are encroaching onto State lands on the Ahihi Bay side, was reconstructed between 1974 and 1986, prior to enactment of Conservation land use laws. The foundation stones were in place at least 55 years ago. Further, the proposed use does not differ with the existing use, and there will be negligible or no expansion or change beyond that previously existing.

DCCA VERIFICATION:

Not applicable - applicants are individuals.

APPLICANT REQUIREMENTS:

Applicant shall be required to:

1) Deposit an amount with the Department representing the estimated consideration of the easement and associated fees;
2) Pay for an appraisal to determine one time, lump sum payment;
3) Provide survey maps and descriptions according to State DAGS standards and at Applicant's own cost; and
4) Pay a $500.00 administrative fine for encroachment upon public lands.

REMARKS:

The Applicants purchased parcel 006 in April of 2002 and are trying to resolve certain encroachments found extending onto State land. Parcel 006 is bordered on the south, west and north by the subject State owned parcel 098, and by the government road on the east. The State land is part of the Ahihi-Kinau Natural Area Reserve (NAR). There are encroaching walls and planters on the South side (Ahihi Bay side). The existing rock wall, designated as State Site No. 50-50-14-5121, extends southward
from the private land onto parcel 098. According to an archaeological survey, the foundation stones for the rock wall were in place at least 55 years ago and potentially date back to the mid 1800s. The wall was reconstructed in 1974 and 1986.

There are also smaller encroachments adjacent to the County road consisting of low rock planters. The Applicants will be removing the encroachments in this area.

After a site inspection in 2000 and upon review of information gathered, the DLNR Coastal Lands Program [CLP] staff has determined that:

1. Long existing encroachments would not have an impact on sandy beaches, since the shoreline in the immediate vicinity is rocky in nature. The wall is situated too far above the wash of waves to influence sand transport during normal conditions;

2. Since the wall is being preserved as a historic site, staff believes it would be counterintuitive to require the owner to remove it; and

3. The most effective way to resolve the encroachment is to entertain an easement to the applicant.

Conservation District Use Application [MA-3111 D] was accepted on October 23, 2002, for the renovation and extension of the single-family residence on parcel 006. The departmental permit approved the addition of two bedrooms and two bathrooms on the second floor of the existing structure, together with proposed landscape improvements.

Although the Applicant has submitted construction plans to proceed with the renovations, the Planning Branch staff will not sign off on the plans until the encroachment is resolved. Similar to encroachments found during shoreline certifications, staff is recommending that we accept an estimated consideration amount, including the amount of the fine and document fees, from the Applicant to allow for the processing of the construction plans. The deposit will provide some security that the Applicant will follow through with the consummation of the encroachment easement. After an independent appraisal is conducted, excess funds will be reimbursed if necessary.

The applicants have not had a lease, permit, easement or other disposition of State lands within the last five years.

AGENCY COMMENTS:

The Department of Hawaiian Home Lands did not respond.

The Office of Hawaiian Affairs deems the maintenance of the rockwall is being done in the interest of an adjacent Jacuzzi. If the Jacuzzi is not already in place, OHA recommends that it be
moved away from the wall. OHA also suggests that the landowners seek the input of Native Hawaiians in the area regarding the appropriate maintenance they intend to perform.

The State Historic Preservation Division, the Department of Health, and the County Planning Department did not comment as they already did so during the CDUA process.

The Division of Forestry and Wildlife, Natural Area Reserve-Maui, had no objection to the granting of the subject easement. They did request that the term of the easement be less rather than more considering the highly protective status of the NAR.

RECOMMENDATION: That the Board:

1. Find that, after considering the potential effects of the proposed disposition as provided by Chapter 343, HRS, and Chapter 11-200, HAR, the disposition will probably have minimal or no significant effect on the environment and is therefore exempt from the preparation of an environmental assessment;

2. Authorize assessing the $500.00 administrative penalty pursuant to HRS 171-6(12), for encroachment on public lands; and

3. Subject to the Applicant fulfilling all of the Applicant requirements listed above, authorize the issuance of a term, non-exclusive easement to Frederic W.C. and Mary F.C. CONSTANT, covering the subject area for rockwall purposes under the terms and conditions cited above, which are by this reference incorporated herein and further subject to the following:

   A. The standard terms and conditions of the most current term easement document form, as may be amended from time to time;

   B. Review and approval by the Department of the Attorney General; and

   C. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State.
