

State of Hawaii  
DEPARTMENT OF LAND AND NATURAL RESOURCES  
Division of Aquatic Resources  
Honolulu, Hawaii 96813

December 14, 2012

Board of Land  
and Natural Resources  
Honolulu, Hawaii

Request for Authorization and Approval to Issue a Papahānaumokuākea Marine National Monument Conservation and Management Permit to Commanding Officer Stephanie A. Koes, National Oceanic and Atmospheric Administration (NOAA) Ship OSCAR ELTON SETTE, for Access to State Waters to Conduct Shipboard Support Activities.

The Division of Aquatic Resources (DAR) hereby submits a request for your authorization and approval for issuance of a Papahānaumokuākea Marine National Monument conservation and management permit to Stephanie A. Koes, C.O., NOAA Ship OSCAR ELTON SETTE, pursuant to § 187A-6, Hawaii Revised Statutes (HRS), chapter 13-60.5, Hawaii Administrative Rules (HAR), and all other applicable laws and regulations.

The conservation and management permit, as described below, would allow entry and management activities to occur in Papahānaumokuākea Marine National Monument (Monument), including the NWHI State Marine Refuge and the waters (0-3 nautical miles) surrounding the following sites:

- Nihoa Island
- Necker Island (Mokumanamana)
- French Frigate Shoals
- Laysan Island
- Maro Reef
- Gardner Pinnacles
- Lisianski Island, Neva Shoal
- Pearl and Hermes Atoll
- Kure Atoll State Wildlife Sanctuary

The activities covered under this permit would occur between January 1, 2013 and December 31, 2013.

The proposed activities are a renewal of work previously permitted and conducted in the Monument.

### INTENDED ACTIVITIES

The applicant proposes to provide an at-sea research platform to support research, education, and management activities within the Monument. Researchers, educators, and managers aboard NOAA Ship OSCAR ELTON SETTE would work under separate permits than the ship.

The ship would transit to the Monument from Pearl Harbor, operate within the Monument conducting various operations, including small boat operations, SCUBA diving, snorkeling, marine debris retrieval and removal, oceanographic data collection, and supporting authorized US Fish and Wildlife Service and State of Hawaii marine and land-based operations. Monument personnel would typically be on board and in charge of all scientific operations.

All methods and procedures would be performed with the safety and welfare of personnel, the protection of Monument resources, and the accomplishment of mission objectives as top priorities. NOAA Ship OSCAR ELTON SETTE would have all required inspections (hull fouling, gear, tender vessel, ballast water, and rat) completed before departure to the Monument. NOAA Ship OSCAR ELTON SETTE also has a type-approved Vessel Monitoring System (VMS) on board, which meets Monument requirements, and would abide by Monument entry and exit notification requirements.

The support provided by NOAA Ship OSCAR ELTON SETTE would not diminish Monument resources, qualities, or ecological integrity and is fully compatible with the purposes of the Proclamation including preserving and furthering understanding of Monument resources and qualities. Research is a critical element of management within the Monument and NOAA Ship OSCAR ELTON SETTE plays an integral role in assuring that research and conservation and management activities are properly supported in the field.

The activities proposed by the applicant directly support the Monument Management Plan's priority management need 3.6 – Achieving Effective Monument Operations through action plan 3.6.3 - Coordinated Field Operations. As NOAA Ship OSCAR ELTON SETTE would serve as a platform for a variety of other permitted activities, this permit would also support priority management needs 3.1 – Understanding and Interpreting the NWHI; 3.2 – Conserving Wildlife and Habitats; and 3.3 – Reducing Threats to Monument Resources.

The activities described above may require the following regulated activities to occur in State waters:

- Anchoring a vessel
- Swimming, snorkeling, or closed or open circuit SCUBA diving within any Special Preservation Area or Midway Atoll Special Management Area

REVIEW PROCESS

The permit application was sent out for review and comment to the following scientific and cultural entities: Hawaii Division of Aquatic Resources, Papahānaumokuākea Marine National Monument (NOAA/NOS), NOAA Pacific Islands Regional Office (NOAA-PIRO), United States Fish and Wildlife Service Pacific Islands NW Refuge Complex Office, and the Office of Hawaiian Affairs (OHA). In addition, the permit application has been posted on the Monument Web site since October 16th, giving the public an opportunity to comment. The application was posted within 40 days of its receipt, in accordance with the Monument's Public Notification Policy.

**Comments received from the scientific community are summarized as follows:**

Scientific reviews support the acceptance of this application. No concerns were raised.

**Comments received from the Native Hawaiian community are summarized as follows:**

Cultural reviews support the acceptance of this application. No concerns were raised.

**Comments received from the public are summarized as follows:**

No comments were received from the public on this application.

**Additional reviews and permit history:**

Are there other relevant/necessary permits or environmental reviews that have or will be issued with regard to this project? (e.g. MMPA, ESA, EA) Yes  No   
If so, please list or explain:

- The proposed activities are in compliance with the National Environmental Policy Act.
- Research scientists working aboard NOAA Ship OSCAR ELTON SETTE will apply for and be issued separate permits pertaining to their individual activities.
- The Department has made an exemption determination for this permit in accordance chapter 343, HRS, and Chapter 11-200, HAR. See Attachment ("DECLARATION OF EXEMPTION FROM THE PREPARATION OF AN ENVIRONMENTAL ASSESSMENT UNDER THE AUTHORITY OF CHAPTER 343, HRS AND CHAPTER 11-200 HAR, FOR PAPA HANAUMOKU AKEA MARINE NATIONAL MONUMENT CONSERVATION AND MANAGEMENT PERMIT TO COMMANDING OFFICER STEPHANIE A. KOES, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION (NOAA) SHIP OSCAR ELTON SETTE, FOR ACCESS TO STATE WATERS TO CONDUCT SHIPBOARD SUPPORT ACTIVITIES UNDER PERMIT PMNM-2013-002").

Has Applicant been granted a permit from the State in the past? Yes  No   
If so, please summarize past permits:

- The NOAA Ship OSCAR ELTON SETTE, under previous Commanding Officers, has been granted Monument and/or DLNR permits for similar activities since 2006. Most recently, Commanding Officer Dreflak was issued permit PMNM-2012-008 for these activities. Additionally, Commanding Officer Lopez was issued permits PMNM-2009-015, PMNM-2010-006, and PMNM-2011-008 in 2009, 2010, and 2011. In addition, DLNR.NWHI06SA001; DLNR/NWHI/07R001; PMNM-2008-009 were also issued for this activity in the past.

Have there been any a) violations: Yes  No   
 b) Late/incomplete post-activity reports: Yes  No

Are there any other relevant concerns from previous permits? Yes  No

### STAFF OPINION

DAR staff is of the opinion that Applicant has properly demonstrated valid justifications for her application and should be allowed to enter the NWHI State waters and to conduct the activities therein as specified in the application with certain special instructions and conditions, which are in addition to the Papahānaumokuākea Marine National Monument Conservation and Management Permit General Conditions. All suggested special conditions have been vetted through the legal counsel of the Co-Trustee agencies (see Recommendation section).

### MONUMENT MANAGEMENT BOARD OPINION

The MMB is of the opinion that the Applicant has met the findings of Presidential Proclamation 8031 and this activity may be conducted subject to completion of all compliance requirements. The MMB concurs with the special conditions recommended by DAR staff.

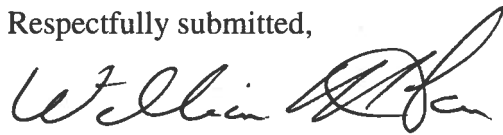

### RECOMMENDATION

That the Board authorize and approve a Conservation and Management Permit to Commanding Officer Stephanie A. Koes, NOAA Ship OSCAR ELTON SETTE, with the following special conditions:

1. To prevent introduction of disease or the unintended transport of live organisms, the permittee must comply with the disease and transport protocol attached to this permit.
2. Tenders and small vessels must be equipped with engines that meet EPA emissions requirements.

3. Refueling of tenders and all small vessels must be done at the support ships and outside the confines of lagoons or near-shore waters in the State Marine Refuge.
4. No fishing is allowed in State Waters except as authorized under State law for subsistence, traditional and customary practices by Native Hawaiians.

Respectfully submitted,

Administrator (Acting)

APPROVED FOR SUBMITTAL

William Aila Jr.  
Chairperson

**Papahānaumokuākea Marine National Monument**  
CONSERVATION AND MANAGEMENT Permit Application

***NOTE: This Permit Application (and associated Instructions) are to propose activities to be conducted in the Papahānaumokuākea Marine National Monument. The Co-Trustees are required to determine that issuing the requested permit is compatible with the findings of Presidential Proclamation 8031. Within this Application, provide all information that you believe will assist the Co-Trustees in determining how your proposed activities are compatible with the conservation and management of the natural, historic, and cultural resources of the Papahānaumokuākea Marine National Monument (Monument).***

**ADDITIONAL IMPORTANT INFORMATION:**

- Any or all of the information within this application may be posted to the Monument website informing the public on projects proposed to occur in the Monument.
- In addition to the permit application, the Applicant must either download the Monument Compliance Information Sheet from the Monument website OR request a hard copy from the Monument Permit Coordinator (contact information below). The Monument Compliance Information Sheet must be submitted to the Monument Permit Coordinator after initial application consultation.
- Issuance of a Monument permit is dependent upon the completion and review of the application and Compliance Information Sheet.

**INCOMPLETE APPLICATIONS WILL NOT BE CONSIDERED**

Send Permit Applications to:

Papahānaumokuākea Marine National Monument Permit Coordinator

6600 Kalaniana'ole Hwy. # 300

Honolulu, HI 96825

nwhipermit@noaa.gov

PHONE: (808) 397-2660 FAX: (808) 397-2662

**SUBMITTAL VIA ELECTRONIC MAIL IS PREFERRED BUT NOT REQUIRED. FOR ADDITIONAL SUBMITTAL INSTRUCTIONS, SEE THE LAST PAGE.**

## **Papahānaumokuākea Marine National Monument Permit Application Cover Sheet**

This Permit Application Cover Sheet is intended to provide summary information and status to the public on permit applications for activities proposed to be conducted in the Papahānaumokuākea Marine National Monument. While a permit application has been received, it has not been fully reviewed nor approved by the Monument Management Board to date. The Monument permit process also ensures that all environmental reviews are conducted prior to the issuance of a Monument permit.

### **Summary Information**

**Applicant Name:** LCDR Stephanie A. Koes, NOAA- Commanding Officer, NOAA Ship Oscar Elton Sette

**Affiliation:** National Oceanic and Atmospheric Administration

**Permit Category:** Conservation and Management

**Proposed Activity Dates:** TBD pending FY13 schedule. Request Permit from January 1, 2013 to December 31, 2013

**Proposed Method of Entry (Vessel/Plane):** Vessel

**Proposed Locations:** Nihoa Island, Necker Island, French Frigate Shoals, Gardner Pinnacles, Maro Reef, Laysan Island, Lisianski Island, Neva Shoal, Pearl and Hermes Atoll, Midway Atoll, Kure Atoll

**Estimated number of individuals (including Applicant) to be covered under this permit:**  
24

**Estimated number of days in the Monument:** TBD (FY12 schedule still pending)

**Description of proposed activities: (complete these sentences):**

a.) The proposed activity would...

Operate the Oscar Elton Sette, a 224' National Oceanic and Atmospheric Administration (NOAA) research vessel within the boundaries of Papahānaumokuākea Marine National Monument. The purpose of this vessel is to provide an at sea research platform support for NOAA research activities. Research scientists aboard the vessel will work under separate permits from the ship.

b.) To accomplish this activity we would ....

Transport and support research scientists traveling within the Monument.

c.) This activity would help the Monument by ...

Providing a data collection platform for scientists to conduct research and conservation management activities in order to preserve and sustain the scientific and cultural significance of Papahānaumokuākea.

**Other information or background:**

**Section A - Applicant Information**

**1. Applicant**

Name (last, first, middle initial): Koes, Stephanie A.

Title: Commanding Officer, NOAA Ship Oscar Elton Sette

**1a. Intended field Principal Investigator (See instructions for more information):**  
N/A

**2. Mailing address (street/P.O. box, city, state, country, zip):**

[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]

For students, major professor's name, telephone and email address: N/A

**3. Affiliation (institution/agency/organization directly related to the proposed project):**  
U.S. Department of Commerce, National Oceanic and Atmospheric Administration,  
Office of Marine and Aviation Operations

**4. Additional persons to be covered by permit. List all personnel roles and names (if known at time of application) here (e.g. John Doe, Research Diver; Jane Doe, Field Technician):**

Officers and crew of NOAA Ship Oscar Elton Sette (see attachment #1)

**Section B: Project Information**

**5a. Project location(s):**

- |  |                                     |   |  |

| <input checked="" type="checkbox"/> Kure Atoll                   | <input type="checkbox"/> Land-based | <input checked="" type="checkbox"/> Shallow water | <input checked="" type="checkbox"/> Deep water |
| <input type="checkbox"/> Other                                   |                                     |   |  |

**Ocean Based**

NOTE: There is a fee schedule for people visiting Midway Atoll National Wildlife Refuge via vessel and aircraft.

Location Description:

**5b. Check all applicable regulated activities proposed to be conducted in the Monument:**

- Removing, moving, taking, harvesting, possessing, injuring, disturbing, or damaging any living or nonliving Monument resource
- Drilling into, dredging, or otherwise altering the submerged lands other than by anchoring a vessel; or constructing, placing, or abandoning any structure, material, or other matter on the submerged lands
- Anchoring a vessel
- Deserting a vessel aground, at anchor, or adrift
- Discharging or depositing any material or matter into the Monument
- Touching coral, living or dead
- Possessing fishing gear except when stowed and not available for immediate use during passage without interruption through the Monument
- Attracting any living Monument resource
- Sustenance fishing (Federal waters only, outside of Special Preservation Areas, Ecological Reserves and Special Management Areas)
- Subsistence fishing (State waters only)
- Swimming, snorkeling, or closed or open circuit SCUBA diving within any Special Preservation Area or Midway Atoll Special Management Area

**6. Purpose/Need/Scope *State purpose of proposed activities:***

The purpose of the ship's activities are to provide an at sea research platform to support small boat, diver, and educational activities in support of approved Monument permit activities including but not limited to protected species research.

\*Considering the purpose of the proposed activities, do you intend to film / photograph federally protected species? Yes  No

For a list of terrestrial species protected under the Endangered Species Act visit:

<http://www.fws.gov/angered/>

For a list of marine species protected under the Endangered Species Act visit:

<http://www.nmfs.noaa.gov/pr/species/esa/>

For information about species protected under the Marine Mammal Protection Act visit:

<http://www.nmfs.noaa.gov/pr/laws/mmpa/>

**7. Answer the Findings below by providing information that you believe will assist the Co-Trustees in determining how your proposed activities are compatible with the conservation and management of the natural, historic, and cultural resources of the Monument:**

The Findings are as follows:

a. How can the activity be conducted with adequate safeguards for the cultural, natural and historic resources and ecological integrity of the Monument?

NOAA Ship Oscar Elton Sette is dedicated to studying and protecting Papahānaumokuākea Marine National Monument, and to carry out NOAA's mission of understanding the Earth's environment and managing marine resources to meet our nation's economic, social, and environmental needs. Activities conducted aboard the ship will be respectful of the natural, historical and cultural resources of the Monument. The ship receives an annual cultural briefing from OHA or designated representatives to ensure crew understand the cultural significance of Papahānaumokuākea Marine National Monument to Native Hawaiians. The crew understands that Native Hawaiians consider all natural resources as cultural resources as well and affords the utmost respect to both. Every effort is made to minimize impact to both cultural and natural resources.

The ship is routinely inspected for sanitation (i.e. rats, insects, etc.) by the Navy, and any corrective action needed is undertaken before the ship enters the PMNM. Additionally, underwater hull inspections are conducted by Monument staff prior to entering the PMNM. Divers are deployed to remove any potentially harmful biofouling agents.

The ship's crew receives an annual cultural briefing from OHA personnel and respect the cultural significance of the NWHI.

The Oscar Elton Sette follows a waste management plan in compliance with all United States Coast Guard, international, and PMNM rules and regulations.

The Oscar Elton Sette carries a vessel monitoring system (VMS) in compliance with PMNM regulations.

The Oscar Elton Sette follows all PMNM regulations not specifically mentioned above.

b. How will the activity be conducted in a manner compatible with the management direction of this proclamation, considering the extent to which the conduct of the activity may diminish or enhance Monument cultural, natural and historic resources, qualities, and ecological integrity, any indirect, secondary, or cumulative effects of the activity, and the duration of such effects? All operations conducted on the NOAA Ship Oscar Elton Sette will be activities permitted by the co-trustees of the Monument. All operations will be compatible with the conservation and management goals of the Monument, NOAA, USFWS, and the State of Hawaii.

c. Is there a practicable alternative to conducting the activity within the Monument? If not, explain why your activities must be conducted in the Monument. The vessel is an at sea research platform to transport scientists and scientific gear to locations throughout the Monument. Without this safe mode of transportation, research and conservation and management activities would be significantly limited or would not occur at all. The ship's mission also supports and fosters critical partnerships between multiple government agencies, both state and federal. Without NOAA's support, USFWS and the Hawaii DLNR would have to locate other sources of logistical support for their research camps.

d. How does the end value of the activity outweigh its adverse impacts on Monument cultural, natural and historic resources, qualities, and ecological integrity? The NOAA Ship Oscar Elton Sette supports scientific research that helps assess and characterize the fauna of the NWHI. Some of these species are critically endangered and the NOAA Ship Oscar Elton Sette is essential in the effort to attempt to restore populations of these animals.

e. Explain how the duration of the activity is no longer than necessary to achieve its stated purpose. Federal funding for protected resources within the Agency is limited. The allocation of project time has been minimized to sustain critical operations only. For example, work within the Monument to support Monk Seal Research is one of the Agency's top priorities and is only supported at a level to sustain minimum operations which includes transit time between the islands, personnel transfers, and equipment movements.

The ship's schedule is determined by OMAO's Fleet Allocation Plan. Days at Sea (DAS) for particular projects are determined by a prioritization process. A combination of this process and the high demand for the ship to support other activities ensures that the ship spends no longer than needed completing projects in the PMNM.

The Oscar Elton Sette spends only the time allocated for the scientific mission as approved in the individual scientific permits granted and approved by the State Land Board and Monument Co-Trustees.

f. Provide information demonstrating that you are qualified to conduct and complete the activity and mitigate any potential impacts resulting from its conduct.

The officers and crew of the Oscar Elton Sette have operated in accordance with a conservation & management permit in Papahānaumokuākea Marine National Monument since early 2007. This permit is a renewal application.

The NOAA Ship Oscar Elton Sette has been conducting scientific operations in the area of the NWHI since being commissioned in 2003. NOAA Commanding Officers are authorized to operate NOAA Vessels in accordance with annual Sailing Orders and the Fleet Allocation Plan. NOAA ships are public vessels and comply with regulations regarding personnel qualifications and operations.

The following attachments are included for review:  
Sailing orders, and Public Vessel Letter.

g. Provide information demonstrating that you have adequate financial resources available to conduct and complete the activity and mitigate any potential impacts resulting from its conduct. The federal government is self insured.

The Oscar Elton Sette is a public vessel of the United States of America operating in the monument to support activities approved by the monument co-trustees. The U.S. government is self-insured. Funding for Oscar Elton Sette originates from the federal budget of the United States of America, specifically the Department of Commerce and the National Oceanic and Atmospheric Administration.

h. Explain how your methods and procedures are appropriate to achieve the proposed activity's goals in relation to their impacts to Monument cultural, natural and historic resources, qualities, and ecological integrity.

Annually the ship invites a member of the Monument staff to brief the crew on the historical and cultural significance of the Monument. Additional literature and briefing materials are available on the ship throughout the year. Each crewmember is required to read and sign the permit abiding by the conditions set forth within the document. The crew honors and respects the cultural, spiritual, and historical significance of Papahānaumokuākea.

The only activities the ship will be conducting in support of other permitted projects are those specifically stated in the approved scientific permits.

In the past the ship has supported important biological work conducted by PIFSC personnel. Assessment of Hawaiian monk seal, green sea turtle, cetacean, lobster, and fish populations are integral in establishing the health of these species, all of which are important to the marine environment in the PMNM. As these animals are protected in the PMNM, their populations can be studied and compared to those in the MHI, an environment in which overfishing and other anthropogenic factors have caused declines in populations.

i. Has your vessel has been outfitted with a mobile transceiver unit approved by OLE and complies with the requirements of Presidential Proclamation 8031?

Yes, the ship is equipped with a Sailor TT 3606 XP, Thrane and Thrane.

j. Demonstrate that there are no other factors that would make the issuance of a permit for the activity inappropriate.

All methods and procedures will be performed with the safety and welfare of personnel, the protection of Monument's natural and cultural resources, and the accomplishment of mission objectives as top priorities.

Ship's personnel will abide by the NOAA documents: "Marine Wildlife Viewing Guidelines", the "Disease and Introduction Species Prevention Protocol for Permitted Activities in the Marine Environment Papahānaumokuākea Marine National Monument". All crewmembers aboard the vessel are required to read and sign the Papahānaumokuākea Marine National Monument Conservation & Management permit and abide by by all permit conditions.

#### **8. Procedures/Methods:**

The ship will transit to the monument from Pearl Harbor, operate within the monument with various research operations, including small boat operations, diving, oceanographic data collection, and supporting authorized USF&WS and State of Hawaii land based operations.

Crew activities will include small boat operations, SCUBA, snorkeling, and swimming as necessary for vessel maintenance, emergency operations, proficiency, or support of vessel and research activities. The primary operations will be small boat operations during day light hours for purposes of transporting scientists to and from islands within the Monument, conducting operations in support of marine debris removal, and other research activities.

**NOTE: If land or marine archeological activities are involved, contact the Monument Permit Coordinator at the address on the general application form before proceeding.**

**9a. Collection of specimens - collecting activities (would apply to any activity): organisms or objects (List of species, if applicable, attach additional sheets if necessary):**

Common name:  
N/A

Scientific name:  
N/A

# & size of specimens:  
N/A

Collection location:  
N/A

Whole Organism  Partial Organism

**9b. What will be done with the specimens after the project has ended?**  
N/A

**9c. Will the organisms be kept alive after collection?**  Yes  No  
N/A

• General site/location for collections:  
N/A

• Is it an open or closed system?  Open  Closed  
N/A

• Is there an outfall?  Yes  No  
N/A

• Will these organisms be housed with other organisms? If so, what are the other organisms?  
N/A

• Will organisms be released?  
N/A

**10. If applicable, how will the collected samples or specimens be transported out of the Monument?**  
N/A

**11. Describe collaborative activities to share samples, reduce duplicative sampling, or duplicative research:**

N/A

**12. List all specialized gear and materials to be used in this activity:**

NOAA Ship Oscar Elton Sette carries three small boats at all times, these are:

18' Fast Rescue Boat-AMBAR Marine with twin 60 hp Mercury Mariner outboard engines.

18' Achilles - inflatable boat with a single 50 hp Yamaha outboard engine

17' Northwind – SAFEboat-type boat with a single 115 hp Yamaha outboard engine  
SCUBA gear

Sustenance fishing will be with handlines from the vessel, and only within the Midway SMA as per Monument Management Board Policy.

**13. List all Hazardous Materials you propose to take to and use within the Monument:**

The ship carries Hazardous Materials for use only aboard the vessel.

See attached list #2

**14. Describe any fixed installations and instrumentation proposed to be set in the Monument:**

N/A

**15. Provide a time line for sample analysis, data analysis, write-up and publication of information:**

N/A

**16. List all Applicant's publications directly related to the proposed project:**

N/A

With knowledge of the penalties for false or incomplete statements, as provided by 18 U.S.C. 1001, and for perjury, as provided by 18 U.S.C. 1621, I hereby certify to the best of my abilities under penalty of perjury of that the information I have provided on this application form is true and correct. I agree that the Co-Trustees may post this application in its entirety on the Internet. I understand that the Co-Trustees will consider deleting all information that I have identified as "confidential" prior to posting the application.

21. Second Cook	Jay Egan
22. Second Cook	Vacant
23. Survey Technician	Robert Spina
24. Electronics Technician	Joe Rossler

## Papahānaumokuākea Marine National Monument Compliance Information Sheet

**1. Updated list of personnel to be covered by permit. List all personnel names and their roles here (e.g. John Doe, Diver; Jane Doe, Field Technician, Jerry Doe, Medical Assistant):** Officers and crew of the NOAA Ship Oscar Elton Sette. See Attachment #1

**2. Specific Site Location(s): (Attach copies of specific collection locations):** General operations throughout the Papahānaumokuākea Marine National Monument.

**3. Other permits (list and attach documentation of all other related Federal or State permits):** N/A

**3a. For each of the permits listed, identify any permit violations or any permit that was suspended, amended, modified or revoked for cause. Explain the circumstances surrounding the violation or permit suspension, amendment, modification or revocation.** N/A

**4. Funding sources (Attach copies of your budget, specific to proposed activities under this permit and include funding sources. See instructions for more information):** All funding is secured on an annual basis through the United States Federal Government. No attachments are included.

**5. Time frame:**

Start: February 1, 2013

Completion: December 31, 2013

Dates actively inside the Monument:

From: TBD

To: TBD

Describe any limiting factors in declaring specific dates of the proposed activity at the time of application: Currently the ship does not have any scheduled work within the monument for calendar year 2013, but FY13 and FY14 ship schedule is subject to change.

Personnel schedule in the Monument: See Attachment #1 for permanent ship's crew. A list of augmenting personnel that fill vacancies can be provided on a cruise by cruise basis.

**6. Indicate (with attached documentation) what insurance policies, bonding coverage, and/or financial resources are in place to pay for or reimburse the Monument trustees for the necessary search and rescue, evacuation, and/or removal of any or all persons covered by the permit from the Monument: The Federal Government is self insured.**

**7. Check the appropriate box to indicate how personnel will enter the Monument:**

- Vessel  
 Aircraft

Provide Vessel and Aircraft information: NOAA Ship Oscar Elton Sette

**8. The certifications/inspections (below) must be completed prior to departure for vessels (and associated tenders) entering the Monument. Fill in scheduled date (attach documentation):**

- Rodent free, Date: TBD  
 Tender vessel, Date:  
 Ballast water, Date:  
 Gear/equipment, Date:  
 Hull inspection, Date: TBD

**9. Vessel information (NOTE: if you are traveling aboard a National Oceanic and Atmospheric Administration vessel, skip this question):**

Vessel name: Oscar Elton Sette

Vessel owner: National Oceanic and Atmospheric Administration

Captain's name: Lieutenant Commander Stephanie Koes, NOAA

IMO#:8835097

Vessel ID#:CG014936

Flag: USA

Vessel type: Motor Vessel

Call sign: WTEE

Embarkation port: Pearl Harbor, HI

Last port vessel will have been at prior to this embarkation: Pearl Harbor, HI

Length: 68.3 m

Gross tonnage: 2014

Total ballast water capacity volume (m3): 511  
Total number of ballast water tanks on ship: 10  
Total fuel capacity: 617  
Total number of fuel tanks on ship: 14  
Marine Sanitation Device: Omnipure MSD  
Type: II

Explain in detail how you will comply with the regulations regarding discharge in the Monument. Describe in detail. If applicable, attach schematics of the vessel's discharge and treatment systems: Discharges incidental to vessel use such as deck wash, approved sanitation device effluent, cooling water, and engine exhaust will be discharged from the vessel during operations within the Monument. Approved sanitation device effluent will only be discharged outside all Special Preservation Areas, Ecological Reserves, and the Special Management Area. Galley waste will only be discharged within the Monument at a distance set forth by issued permit outside Special Preservation Areas, Ecological Reserves, and the Special Management Area.

Other fuel/hazardous materials to be carried on board and amounts: gasoline, hydraulic oil, lubrication oil, formalin, and 95% ethanol. Amounts will be determined by individual project requirements.

Provide proof of a National Oceanic and Atmospheric Administration (NOAA) Office of Law Enforcement-approved Vessel Monitoring System (VMS). Provide the name and contact information of the contractor responsible for installing the VMS system. Also describe VMS unit name and type: Sailor TT 3606 XP, Thrane and Thrane

VMS Email: 436900545@c.xantic.net  
Inmarsat ID#:436900545

\* Individuals MUST ENSURE that a type-approved VMS unit is installed and that its automatic position reports are being properly received by the NOAA OLE system prior to the issuance of a permit. To make sure your VMS is properly configured for the NOAA OLE system, please contact NOAA OLE at (808) 203-2503 or (808) 203-2500.

\* PERMITS WILL NOT BE ISSUED TO INDIVIDUALS ENTERING THE MONUMENT VIA VESSEL UNTIL NOAA OLE HAS CONTACTED THE MONUMENT PERMIT COORDINATOR WITH A 'POSITIVE CHECK' READING.

#### **10. Tender information:**

On what workboats (tenders) will personnel, gear and materials be transported within the Monument? List the number of tenders/skiffs aboard and specific types of motors:  
NOAA Ship Oscar Elton Sette carries three launches at all times:

18' Fast Rescue Boat - AMBAR Marine with twin 60 hp Mercury Mariner outboards  
18' Achilles - RHIB with 50 hp Yamaha outboard  
17' Northwind - SAFEboat type vessel with 115 hp Yamaha outboard

### **Additional Information for Land Based Operations**

**11. Proposed movement of personnel, gear, materials, and, if applicable, samples:**  
N/A

**12. Room and board requirements on island:** N/A

**13. Work space needs:** N/A

**DID YOU INCLUDE THESE?**

- Map(s) or GPS point(s) of Project Location(s), if applicable
- Funding Proposal(s)
- Funding and Award Documentation, if already received
- Documentation of Insurance, if already received
- Documentation of Inspections
- Documentation of all required Federal and State Permits or applications for permits

NOAA Ship *Oscar Elton Sette*, 2013 Monument Permit Application

Ship's Complement – 23 persons

1. Commanding Officer	LCDR Stephanie Koes
2. Executive Officer	LCDR Russell Haner
3. Operations Officer	LT Justin Keesee
4. Navigation Officer	ENS Justin Ellis
5. Safety Officer	ENS Daniel Langis
6. Junior Officer	ENS Louis Hooch
7. Medical Officer	LCDR Hung Tran
8. Chief Marine Engineer	Harry Cane
9. 1 <sup>st</sup> Assistant Engineer	Michael Caseria
10. 2 <sup>nd</sup> Assistant Engineer	William Hance
11. Junior Unlicensed Engineer	James McDade
12. Oiler	Michael Joseph
13. Chief Boatswain	Kenneth Motoyama
14. Lead Fisherman	Douglas Roberts
15. Skilled Fisherman	Bruce Mokiao
16. Skilled Fisherman	John Mills Dunlap
17. Fisherman	Raymond Storms
18. General Vessel Assistant	William White
19. Chief Steward	Clementine Lutali
20. Second Cook	Jay Egan
21. Second Cook	TBD
22. Survey Technician	Robert Spina
23. A. Rotating Electronics Technician	Joe Rossler
23. B. Rotating Electronics Technician	Kim Belveal

**DECLARATION OF EXEMPTION FROM THE PREPARATION OF AN ENVIRONMENTAL ASSESSMENT  
UNDER THE AUTHORITY OF CHAPTER 343, HRS AND CHAPTER 11-200 HAR, FOR PAPAHA NAUMOKU AKEA  
MARINE NATIONAL MONUMENT CONSERVATION AND MANAGEMENT PERMIT TO COMMANDING OFFICER  
STEPHANIE A. KOES, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION (NOAA) SHIP OSCAR ELTON  
SETTE, FOR ACCESS TO STATE WATERS TO CONDUCT CONSERVATION AND MANAGEMENT ACTIVITIES UNDER  
PERMIT PMNM-2013-002**

The following permitted activities are found to be exempted from preparation of an environmental assessment under the authority of Chapter 343, HRS and Chapter 11-200, HAR:

Project Title:

Papahānaumokuākea Marine National Monument Conservation and Management Permit to Commanding Officer Stephanie A. Koes, National Oceanic and Atmospheric Administration (NOAA) Ship OSCAR ELTON SETTE, for Access to State Waters to Conduct Conservation and Management Activities

Permit Number: PMNM-2013-002

Project Description:

The conservation and management permit application, as described below, would allow entry and activities to occur in Papahānaumokuākea Marine National Monument (Monument), including the NWHI State waters between January 1, 2013 and December 31, 2013.

This is an effort to provide an at-sea platform for NOAA's research, education, and management programs and the Monument. The scope of activities in the permit include, but are not limited to, small boat operations, SCUBA diving, snorkeling, marine debris retrieval and removal, and oceanographic data collection. Researchers, educators, and managers aboard NOAA Ship OSCAR ELTON SETTE would work under separate permits than the ship.

The proposed activities are in direct support of the Monument Management Plan's priority management need 3.6 – Achieving Effective Monument Operations through action plan 3.6.3 - Coordinated Field Operations.

ITEM F-1c

Activities to support coordinated field operations in the NWHI are addressed in the Monument Management Plan Environmental Assessment (December 2008) which resulted in a FONSI, or a Finding Of No Significant Impact. This EA recognizes that field operations rely on ships, and that providing transportation support has a beneficial effect on threatened and endangered species, marine mammals, and other Monument resources. (PMNM MMP Vol 2, p.26, 185, and 187).

Consulted Parties:

The permit application was sent out for review and comment to the following scientific and cultural entities: Hawaii Division of Aquatic Resources, Hawaii Division of Forestry and Wildlife, Papahānaumokuākea Marine National Monument (NOAA/NOS), NOAA Pacific Islands Regional Office (NOAA-PIRO), United States Fish and Wildlife Service Hawaiian and Pacific Islands National Wildlife Refuge Complex Office, and the Office of Hawaiian Affairs (OHA). In addition, the permit application has been posted on the Monument Web site since October 16th, giving the public an opportunity to comment. The application was posted within 40 days of its receipt, in accordance with the Monument's Public Notification Policy.

Exemption Determination:

After reviewing HAR § 11-200-8, including the criteria used to determine significance under HAR § 11-200-12, DLNR has concluded that the activities under this permit would have minimal or no significant effect on the environment and that issuance of the permit is categorically exempt from the requirement to prepare an environmental assessment based on the following analysis:

1. All activities associated with this permit, including ship operations, have been evaluated as a single action.

As a preliminary matter, multiple or phased actions, such as when a group of actions are part of a larger undertaking, or when an individual project is precedent to or represents a commitment to a larger project, must be grouped together and evaluated as a single action. HAR § 11-200-7. Since this permit involves an activity that represents a commitment to a larger project, i.e. conducting research and management activities, the categorical exemption determination here will treat all planned activities as a single action, to the extent possible.

2. The Exemption Class for Scientific Research with no Serious or Major Environmental Disturbance Appears to Apply.

Chapter 343, HRS, and § 11-200-8, HAR, provide for a list of classes of actions exempt from environmental assessment requirements. HAR §11-200-8.A.5. exempts the class of actions which involve "basic data collection, research, experimental management, and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource." This exemption class has been interpreted to include "game and non-game wildlife surveys, inventory studies, new transect lines, photographing, recording, sampling...", such as those to be supported by the proposed activities. It has also been interpreted to include various modes of transportation to reach field areas necessary to carry out such surveys.

The proposed activities appear to fall squarely under the exemption class #5, exempt item #2 as described under the division of Forestry and Wildlife exemption list published on June 12, 2008. As discussed below, no significant disturbance to any environmental resource is anticipated in the sampling of Monument resources. Thus, so long as the below considerations are met, an exemption class should include the action now contemplated.

3. Cumulative Impacts of Actions in the Same Place and Impacts with Respect to the Potentially Particularly Sensitive Environment Will Not be Significant.

Even where a categorical exemption appears to include a

proposed action, the action cannot be declared exempt if “the cumulative impact of planned successive actions in the same place, over time, is significant, or when an action that is normally insignificant in its impact on the environment may be significant in a particularly sensitive environment.” HAR § 11-200-8.B. To gauge whether a significant impact or effect is probable, an exempting agency must consider every phase of a proposed action, any expected primary and secondary consequences, the long-term and short-term effects of the action, the overall and cumulative effect of the action, and the sum effects of an action on the quality of the environment. HAR § 11-200-12. Examples of actions which commonly have a significant effect on the environment are listed under HAR § 11-200-12.

Similar activities of this type, to conduct routine support ship operations, have been permitted and undertaken in the past. The NOAA Ships HI'IALAKAI and OSCAR ELTON SETTE have both been permitted to work in the NWHI each year since 2006. In addition, the NOAA Ship McArthur II was permitted in 2010. It is reasonable to expect future permit requests for similar support work. No deleterious impacts resulted from similar previous activities. With this in mind, significant cumulative impacts are not anticipated as a result of this activity, and numerous safeguards further ensure that the potentially sensitive environment of the project area will not be significantly affected. All activities would be conducted in a manner compatible with the management direction of the Monument Proclamation in that the activities do not diminish monument resources, qualities, and ecological integrity, or have any indirect, secondary, cultural, or cumulative effects. The joint permit review process did not reveal any anticipated indirect or cumulative impacts, nor did it raise any cultural concerns, that would occur as a result of these activities.

The activities of the NOAA Ship OSCAR ELTON SETTE would provide support for research and management cruises. All research activities onboard these cruises would be applied for and permitted separately. At this time, no other concurrent activities are known. However, as in the past, the culmination of this permit, along with those which may be supported by it, occurring throughout the Monument over a several month-long period, is not anticipated to have significant cumulative impacts.

Since no significant cumulative impacts or significant impacts with respect to any particularly sensitive aspect of the project area are anticipated, the categorical exemptions identified above should remain applicable.

4. Overall Impacts will Probably be Minimal and Insignificant Any foreseeable impacts from the proposed activity will probably be minimal, and further mitigated by general and specific conditions attached to the permit. Specifically, all conservation and management activities covered by this permit will be carried out with strict safeguards for the natural, historic, and cultural resources of the Monument as required by Presidential Proclamation 8031, other applicable law and agency policies and standard operating procedures.

Conclusion. Upon consideration of the permit to be approved by the Board of Land and Natural Resources, the potential effects of the above listed project as provided by Chapter 343, HRS and Chapter 11-200 HAR, have been determined to be of probable minimal or no significant effect on the environment and exempt from the preparation of an environmental assessment.
