REMARKS:

On November 30, 2012, under agenda item D-10 (attached hereto as Exhibit “B-1”) the Land Board granted approval in principle for the acquisition of land to expand the Maui Veterans Cemetery. The current submittal requests final approval from the Land Board and summarizes due diligence completed or underway to support the acquisition.

The existing Maui Veterans Cemetery in Makawao, Maui, under the control and management of the County of Maui pursuant to Executive Order No. 3279, is nearing full occupancy. The Hawaii Department of Defense (DOD) Office of Veterans Services (OVS) has been seeking an expansion site for some time to address this impending need for more burial space for veterans.

In 2008, DOD OVS brought a proposed acquisition of expansion land for the cemetery to the attention of the Department, requesting follow up and assistance. The OVS reported that Mr. Jordan Santos of Makawao was offering to sell a 10.0 acre parcel immediately adjacent to the existing Veterans Cemetery to the State for the purpose of the much-needed cemetery expansion. It was later disclosed that Mr. Santos was in negotiations with then-landowner Paul Turner to purchase the subject 10.0 acres and adjacent lands, and that due diligence for the transaction was still underway.

In 2011, the DOD obtained an appropriation of $5.3 million from the Hawaii State Legislature for the acquisition, planning and design, and construction of the cemetery expansion, and also applied to the U.S. Department of Veterans Affairs (VA) Veterans Cemetery Grants Program which provides grants to States for cemetery development, though not for the acquisition of land, which States must provide.

To obtain some assurance for the State to justify commencement of its due diligence for the proposed purchase from the proposed seller, staff sought written documentation of Mr. Santos’ intent.

In January 2012, Mr. Santos signed a letter from the Department documenting his interest and desire to sell and convey the land, once he acquired it, to the State for the cemetery expansion, and acknowledgment that the sales price could be “no higher than the fair market value of the land as determined by the State’s appraisal process” pursuant to the requirements of §171-30. Hawaii Revised Statutes.

On November 30, 2012, staff took the proposed acquisition to the Land Board which granted its approval in principle under agenda item D-10. Since that time, the DOD OVS, DAGS, and the Department have been working closely together on due diligence to support the proposed acquisition.
In federal Fiscal Year 2013, commencing October 1, 2012, the VA had ranked the Maui Veterans Cemetery as #1 on its national Priority List of 95 Pending State and Tribal Government Cemetery Construction Grant Pre-applications, which serves as the VA’s basis for awarding grants during each fiscal year. However, since acquisition was not accomplished during FY2013, the VA downlisted the project to #5 of a list of 87 pending pre-applications for FY2014.

In April 2013, in accordance with §171-30, HRS, an appraisal contracted by the State determined fair market value of the subject property as a stand-alone property with standard amenities to be $765,000.00. Seller had informed the appraiser that he would deliver at closing the following three items: access easement, utility easement, and fire protection water from Baldwin Avenue to the subject property.

In July 2013, a Phase I environmental site assessment of the subject property was completed for use by the State of Hawaii. Subsequently Phase II multi-incremental soil sampling was conducted to further investigate possible recognized environmental concerns (RECs). No hazardous materials were found on the subject property at or above HDOH Tier 1 Environmental Action Levels for Unrestricted and/or Commercial/Industrial land use, therefore no further action (NFA) was required.

The Paul Turner Subdivision defining the property being purchased by Jordan Santos was finally approved by Maui County on October 15, 2013. An administrative subdivision to create the 10 acre lot being offered to the State by Mr. Santos for the Veterans Cemetery expansion was approved January 9, 2014 by the Department of Public Works (DPW), County of Maui.

On January 31, 2014, Mr. Santos acquired the subject property and surrounding lands adjacent to the Maui Veterans Cemetery from Mr. Turner, as he had intended. A deed and preliminary title report were subsequently provided to the State to evidence this acquisition and to formalize the offer of the subject property.

Since an update for the Phase I environmental site assessment is needed to meet EPA requirements as summarized in the ASTM International Practice E 1527-13, the State’s environmental consultant made a site visit to the subject property on March 5, 2014. The consultant identified a new REC consisting of a small stockpile of concrete debris, characterized as improper disposal of regulated solid waste. The proposed Seller subsequently acknowledged he had created the debris pile while preparing a new fence line along the boundary, and has agreed to remove it.

At this time, closure is pending the delivery of certain items on which the appraisal of fair market value, referenced above, was based:
1) The property is not environmentally impaired.
   Current status: Upon removal of the new solid waste debris pile by the Seller, the environmental consultant will revisit the site, make a determination as to final condition of the subject property, and complete the update of the Phase 1 Environmental Site Assessment.

   Current Status: Seller has agreed to deliver said release upon closing.

3) An existing access easement would be conveyed across Lot 1 of the adjacent State-owned Maui Veterans Cemetery.
   Current status: The easement will be written into the State’s Warranty Deed property description, but not shown on the Deed map since its location is described but not precisely defined in the recorded historical documentation. The County subdivision map was amended on January 24, 2014 to show new data defining the easement location across Lot 1, however, the State has asked Maui County to revise this to reflect the same information provided on the State’s Warranty Deed map (Exhibit “A-1”), to be consistent with previously recorded documentation.

4) Access, electricity, and fire protection water would be made available from the adjacent access roadway to Lot B of the Paul Turner Subdivision.
   Current status: Construction for installation of fire protection water and an electrical stub-out has not yet begun. The Seller reports that County approval for both are still pending, so delivery may not be possible for some time. However, at closing the seller will be asked to deliver an easement for access, electrical line and stub-out and fire protection water from Baldwin Avenue through Lot B, which would be terminable upon seller successfully completing the improvements and dedication to the County and Utility as the case may be.

Because the appraisal was based on the subject property as a stand-alone property with its highest and best use as a single family residence, absent: the promised fire protection water and electrical stub-out, the appraised value of $765,000.00 could not be justified. To address these outstanding items, Staff recommends the Land Board consider the following conditions for post-closing obligations, summarized below and more fully described in the Agreement for Purchase and Sale, attached hereto as Exhibit “C-1”.

1) Not later than thirty-six (36) months after the Closing
Date, Seller will, at no cost to Buyer,

(i) construct an underground waterline for fire protection and a hydrant in the approximate location on TMK (2) 2-4-002:007, within three hundred fifty (350) feet of the Property; and

(ii) construct electrical service with a stub-out on the Existing Cemetery Land.

2) Fifty Thousand Dollars ($50,000.00) of the purchase price shall be retained in escrow to ensure Seller’s compliance (hereinafter “retained funds”). The retained funds shall be released from escrow to Seller upon escrow’s receipt of written confirmation signed by the Maui County Director of Public Works that said waterline, hydrant and electrical service with stub-out are completed.

3) If Seller fails to fully comply with his obligations within thirty-six months of the Closing Date, the retained funds shall be released from escrow to the Buyer. The Buyer shall also have all remedies available at law and in equity for breach of contract.

4) Seller’s thirty-six month deadline may be extended by mutual written agreement between Seller and Buyer if, at the end of the thirty-six (36) months, Seller’s completion has been delayed by circumstances beyond Seller’s control, provided that such extension(s) shall not exceed twenty-four (24) months in the aggregate.

It should be noted that the State’s first proposal to the Seller was to withhold $100,000.00, the estimated cost of construction for the outstanding obligations, or have Seller post a bond for the post-closing obligations. However, Seller would not agree to either alternative, citing his intentions to deliver the outstanding items within four years of closing, and to dedicate the fire protection water line and hydrant to Maui County Department of Water Supply, and the electrical line to Maui Electric Company.

As of March 2014, the OVS reported that about 126 burial sites remain in the existing Veterans Cemetery. Burials occur at the average rate of 10 per month, so the Cemetery will reach full capacity in about another year.

In the meantime, in recognition of this urgency, the DOD Engineering Branch and DAGS Public Works have advanced planning and design for the anticipated expansion site, to allow construction to commence as soon as possible after acquisition. (However, should this acquisition fail to reach closure, the plans would have to be abandoned, as they are site-specific.) Bid documents for the cemetery expansion project are essentially
complete at this time, and the necessary permits are being processed for approval in anticipation of the State receiving title to the subject property.

The cemetery expansion project is also dependent upon federal funding from the VA, but those grant awards can only be made to States which have already acquired the land to be developed.

In light of these factors, in addition to the urgency of the need for cemetery expansion to allow burial services for veterans to continue to be available on Maui, it would be most advantageous to close on this acquisition as soon as possible.

The State’s standard Warranty Deed prepared for this acquisition is attached hereto as Exhibit “D-1”.

Subsequent to its acquisition by the State of Hawaii, the subject property will be consolidated with the existing Maui Veteran Cemetery property, and set aside to the County of Maui for operation by its Department of Public Works along with the existing Veterans Cemetery.

Due to timing and other considerations, Staff scheduled this matter before the BLNR at the earliest possible date with recommendations that Staff believes fair based on these particular facts and circumstances.

**RECOMMENDATION:** That the Board:

1. Authorize the acquisition of the subject private lands under the terms and conditions cited above which are by this reference incorporated herein and further subject to the following:

   A. The standard terms and conditions of the most current deed, together with a terminable easement provision or document form, as the case may be and as may be amended from time to time;

   B. Review and approval by the Department of the Attorney General;

   C. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State.

C. Review and approval by the Department of the Attorney General; and

3. Approve of and recommend to the Governor the issuance of an executive order setting aside the subject lands to Maui County under the terms and conditions cited above, which are by this reference incorporated herein and subject further to the following:

A. The standard terms and conditions of the most current executive order form, as may be amended from time to time;

REMARKS:

The Office of Veteran Services (OVS) of the Hawaii State Department of Defense (DOD) reports that the existing 7.0 acre Veterans Cemetery in Makawao, Maui, under the control and management of the County of Maui pursuant to Executive Order No. 3279, is imminently nearing full occupancy. With an estimated only one to two years of capacity remaining, the urgency of securing an expansion site only increases as time goes by.

DOD also reports that an opportunity to acquire land immediately adjacent to the existing cemetery site has been offered by Mr. Jordan Santos of Makawao. He is currently in the process of acquiring a tract of land adjacent to the Veterans Cemetery from private landowner Paul Turner, and has expressed his intention, upon its acquisition, to immediately sell a 10.0 acre portion to the State of Hawaii for the Veterans Cemetery expansion. The two parties have agreed to detail the planned transactions in escrow instructions to ensure that their wishes are followed as referenced in Exhibit B.

The ECD obtained a legislative appropriation of $5.3 million in 2011 for the acquisition, planning and design, and construction of the cemetery expansion, and has since been working closely with the Department of Accounting and General Services (DAGS) Planning Branch on plans for the expenditure of those funds.

In June 2012, a subdivision application for the 10.0 acres was submitted by the current landowner to the County of Maui, which the County estimated would take approximately six months to process. DAGS staff are poised to implement the planning and design process as soon as acquisition is completed.

Maui County has agreed to take over operations and management of the Veterans Cemetery expansion via a set aside by Executive Order of the subject property. A letter from their Department of Public Works is attached for reference as Exhibit C.

As time is of the essence, DOD and DAGS would like to obtain preliminary approval from the Land Board to help expedite the due diligence requirements of the planned acquisition.

RECOMMENDATION: That the Board:

1. Authorize the acquisition of the subject private lands under the terms and conditions cited above which are by this reference incorporated herein and further subject to the following:
   A. The standard terms and conditions of the most current deed document form, as may be amended from time to time;
   B. Review and approval by the Department of the Attorney
C. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State.

2. Approve of and recommend to the Governor the issuance of an executive order setting aside the subject lands to Maui County under the terms and conditions cited above, which are by this reference incorporated herein and subject further to the following:

A. The standard terms and conditions of the most current executive order form, as may be amended from time to time;

B. Disapproval by the Legislature by two thirds vote of either the House of Representatives or the Senate or by a majority vote by both in any regular or special session next following the date of the setting aside;

(e) The representations and warranties of the Seller set forth in this Section 10 shall survive the Closing Date.

11. Seller's Post-Closing Covenant. After the Closing Date, Seller hereby agrees to do the following things, as binding and enforceable covenants of Seller, which will survive the Closing Date:

Not later than thirty-six (36) months after the Closing Date, Seller will, at no cost to Buyer, (i) construct an underground waterline for fire protection and a hydrant in the approximate location on TMK (2) 2-4-002:007, within three hundred fifty (350) feet of the Property, as shown on the map attached hereto as Exhibit "E" conforming to specifications set

Fifty Thousand Dollars ($50,000.00) of the purchase price shall be retained in escrow to ensure Seller's compliance (hereinafter "retained funds"). The retained funds shall be released from escrow to Seller upon escrow's receipt of written confirmation signed by the Maui County Director of Public Works that said waterline, hydrant and electrical service and stub-out are completed.

If Seller fails to fully comply with his obligations under this Section 11 within thirty-six months of the Closing Date, the retained funds shall be released from escrow to Buyer. The Buyer shall also have all remedies available at law and in equity for breach of contract.

Seller's thirty-six (36) month deadline may be extended by mutual written agreement between Seller and Buyer if, at the end of the thirty-six (36) months, Seller's completion has been delayed by circumstances beyond Seller's control, such as a force majeure event or delays by the County of Maui in approving construction plans or inspecting and approving the completed work, notwithstanding Seller's good faith and diligent efforts to satisfy said deadline, provided that such extension(s) shall not exceed twenty-four (24) months in the aggregate.

This covenant set forth in this Section 11 shall survive the Closing Date.

(a) Sufficient funds to cover all financial obligations of said party with respect to the transaction and its closing as set forth in this Agreement.

(b) All documents, instruments and agreements called for hereunder or which are necessary in order to cause the conveyance of the Property to the Buyer in accordance with the terms and conditions of this Agreement.

(c) A certificate that Seller is a resident person within the meaning of Section 235-68 of the Hawaii Revised Statutes and Section 1445 of the Internal Revenue Code of 1986.

13. Escrow Instructions. These escrow instructions are irrevocable and may be amended by mutual agreement of Buyer and Seller.

(d) Pay all closing costs and prorations for which either party is responsible from the funds deposited by said party.

(e) As soon as possible after the Closing Date cause the owner's title policy to be issued to the Buyer.

(f) Escrow shall be responsible for timely complying, on behalf of each party, with all transaction reporting requirements, including, without limitation, filing or submitting as appropriate an Internal Revenue Service Form 1099 for each transaction contemplated herein. Escrow shall prepare certificates in compliance with the requirements of the Foreign Investment in Real Property Tax Act and documents required by HRS Section 235-68 in order to permit the close of escrow to occur without Buyer being required to withhold any portion of the consideration to be transferred to the Seller with respect to said transfer.
