CHAPTER 343 - ENVIRONMENTAL ASSESSMENT:

In accordance with Hawaii Administrative Rule Sections 11-200-8(a)(1) & (4) and the Exemption List for the Department of Land and Natural Resources approved by the Environmental Council and dated December 4, 1991, the subject request is exempt from the preparation of an environmental assessment pursuant to Exemption Class No. 1, that states "Operations, repairs or maintenance of existing structures, facilities, equipment, or topographical features, involving negligible or no expansion or change of use beyond that previously existing" and Class No. 4, that states "Minor alteration in the conditions of land, water, or vegetation." (Exhibit B).

DCCA VERIFICATION:

Applicant is a natural person and, as such, is not required to register with DCCA

REMARKS:

The subject property was leased to William D. Medeiros under General Lease No. ("GL") S-5560 for pasture purposes since 1998, and Mr. Medeiros has cared for the property meticulously for the past 15 years. The lease expired on December 1, 2013. The Kauai District Land Office ("KDLO") received a request from Mr. Medeiros dated November 22, 2013, for a revocable permit on the same parcel. Based on the existing records, staff believes the applicant is a good steward of the land as he as cleaned and maintained the area, installed and repaired fence lines as required.
Under GL S-5560, condition no. 58 requires a Level One (1) Hazardous Waste Evaluation and complete abatement and disposal, if necessary, be performed prior to lease termination. However, staff is recommending that this condition be deferred until the termination of the revocable permit. Staff is including a recommendation below that the revocable permit include special conditions extending the permittee’s obligations for environmental conditions, hazardous materials and indemnity from the date of the commencement of GL S-5560 to the termination of the permit.

A final inspection of the property was conducted on December 4, 2013 at which time the premises was found to be clean with no trash or abandoned property. Refer to the inspection report. (Exhibit C).

KDLO has not received any other request for the use of the subject property. Mr. Medeiros intends to continue to use the property for pasture purposes, on a month-to-month tenancy which is the most appropriate disposition at this time.

The applicant has not had a lease, permit, easement or other disposition of State lands terminated within the last five years due to non-compliance with such terms and conditions.

The proposed use had continued since 1998 and will continue. Such use has resulted in no known significant impacts, whether immediate or cumulative, to the natural environmental and/or cultural resources in the areas. As such, staff believes that the proposed use would involve negligible or no expansion or change in use of the subject area beyond that previously existing.

On February 14, 2014, various government agencies and interest groups were solicited for comments. The Division of Forestry & Wildlife, County of Kauai’s Public Works Department and the West Kauai Soil & Water Conservation District responded with no objections/comments to the subject request.

Department of Health, State Historic Preservation Division, Commission of Water Resource Management, County of Kauai’s Planning and Water Departments, and the Office of Hawaiian Affairs have not responded by the suspense date.

Staff recommends the Board authorize the issuance of the request revocable permit at a monthly rent of $40.00, in accordance with the Minimum Rent Policy for New Dispositions approved by the Board on May 13, 2005, item D-19. This rent is higher than the lease rent ($190.00 per year at lease expiration).

RECOMMENDATION: That the Board:

1, Declare that, after considering the potential effects of the proposed disposition as provided by Chapter 343, HRS, and Chapter 11-200, HAR, this project will probably have minimal or no significant effect on the environmental and is
therefore, exempt from the preparation of an environmental assessment.

2. Authorize the issuance of a revocable permit to William D. Medeiros, covering the subject area for pasture purposes under the terms and conditions cited above, which are by this reference incorporated herein and further subject to the following:

   a. The standard terms and conditions of the most current revocable permit form, as may be amended from time to time; except that the permit shall include special conditions extending the permittee's obligations for environmental conditions, hazardous materials and indemnity from the date of the commencement of General Lease No. S-5560 to the termination of the permit;

   b. Review and approval by the Department of the Attorney General; and

   c. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State.

Respectfully Submitted,
