CURRENT ANNUAL RENT:

$3,142.00 per annum

REMARKS:

General Lease No. S-3836 was sold at public auction on June 126, 1964 to Tsuruyo Oda, Partnership for a period of 55 years. Rental reopenings were on the 20th, 30th, 40th and 50th years of the lease term.

At its meeting of January 24, 1969, under agenda item F-1, the Board consented to the assignment of lease from Tsuruyo Oda Partnership to Oda Orchids, Inc. Then, at its meeting of November 7, 1986, under agenda item F-4, the Board consented to a request for a waiver of the performance bond requirement.

The Board further consented to an assignment of lease at its meeting of September 24, 1993, under agenda item F-1-d, from Oda Orchids, Inc. to Kenpai Tanaka Hawaii, Inc. Then, at its meeting of September 22, 2000, under agenda item D-13, the Board consented to the assignment of lease from Kenpai Tanaka Hawaii, Inc. to NoJer Enterprises, Inc.

More than three-quarters of the property has been cleared, graded and is actively utilized for agricultural purposes. The Lessee utilizes the property as an ornamental plant nursery and cultivates orchids, anthuriums and assorted tropical flowers and foliage for commercial sale. According to the Lessee, approximately three-fourths of an acre of land is devoted to orchid cultivation within various greenhouse structures. In addition to the greenhouse structures, a little over an acre of artificial shade area is dedicated to anthuriums cultivation. The remaining growing areas are devoted to assorted tropical flowers and foliage. A large packing facility/storage warehouse is also located on the property.

After fifty years of growing and selling orchids and other tropical flowers and with five years remaining on the lease, the Lessee was preparing to close down its business operation on the State leasehold property. They have recently sold the packing and export division of the business and were planning to phase out the growing portion within the remaining five years. The scheduled rental reopening for the remaining five years of the lease determined the new
rent at $23,660.00 per annum. This represents more than a 700% increase from the current rent and the Lessee has concluded that it would not be feasible to continue the operation at the proposed rent. In a letter dated April 14, 2014 (Exhibit B), the Lessee informed Land Division that they are rejecting the proposed rental increase and is making a request for early termination of GL S-3836.

Staff has reviewed the lease account. The Lessee is current with the liability and fire insurance requirements. The performance bond requirement was waived by the Board on November 7, 1986. The Lessee is current with rent through June 16, 2014.

As a result of an inspection performed on May 13, 2014 and because of the Lessee's request for an early termination of the lease, staff is recommending the Board require the Lessee conduct a Phase I Environmental Site Assessment\(^1\) (ESA) on the property and perform any remediation resulting from the Phase I ESA. All costs associated to Phase I ESA shall be paid by the Lessee and completed by December 31, 2014.

In order to defray some of the expenses associated with the Phase I ESA, the Lessee is requesting authorization from the Board for the removal and subsequent sale of the greenhouse structures on the leasehold property.

Staff is recommending the Board authorize the cancellation of General Lease No. S-3836, NoJer Enterprises, Inc., Lessee, subject to the following:

**RECOMMENDATION**: That the Board:

1. Authorize the mutual cancellation of General Lease No. S-3836, NoJer Enterprises, Inc., Lessee, covering the subject area under the terms and conditions cited above, which are by this reference incorporated herein and further subject to the following:
   
   A. The standard terms and conditions of the most current mutual cancellation lease document form, as may be amended from time to time;
   
   B. The effective date of cancellation shall be June 15, 2014;
   
   C. Require the Lessee conduct a Phase I Environmental Site Assessment (ESA) and perform any remediation resulting from the Phase I ESA. All costs shall be paid by the Lessee and completed by December 31, 2014;
   
   D. Allow the Lessee to remove greenhouse structures in order to offset the costs associated with the Phase I ESA and any subsequent remediation;

---

\(^{1}\) Although this lease does not have a provision for a Phase 1 Environmental Site Assessment, it is currently required upon termination of all new DLNR agricultural leases.
E. Review and approval by the Department of the Attorney General; and

F. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State.

Respectfully Submitted,
