REMARKS:

St. Theresa School is planning its school carnival on April 15 & 16, 2016. The school has very limited parking area for patrons of the carnival to park. The school is located in a residential area and State unencumbered lands are next to the school and St. Theresa Church.

The parking area is a grass field. School patrons will water the area to keep any dust to a minimum from the vehicles entering or exiting the field.

Staff is recommending gratis for rent as there is no fee to any of the participants, the event is a not-for-profit event and is open to the community.

The proposed activity has historically and routinely occurred and continues to occur on this and other beach areas across the State. Such activities have resulted in no known significant impacts, whether immediate or cumulative, to the natural, environmental and/or cultural resources in the area. As such staff believes that the proposed event/use would involve negligible or no expansion or change in use of the subject area beyond that previously existing.

Applicant has not had a lease, permit, easement or other disposition of State lands terminated within the past five years due to non-compliance with such terms and conditions.

Declare that, after considering the potential effects of the proposed disposition as provided by Chapter 343, HRS, and Chapter 11-200, HAR, this project will probably have minimal or no significant effect on the environment and is therefore exempt from the preparation of an environmental assessment.

2. Authorize the issuance of a right-of-entry permit to St. Theresa School covering the subject area under the terms and conditions cited above, which are by this reference incorporated herein and further subject to the following:
 - A. The standard terms and conditions of the most current right-of-entry permit form, as may be amended from time to time;
