- (4) Make any decision concerning the continuance of the hearing. As determined by the presiding officer, the hearing held at the time and place set in the notice of hearing may be continued from day to day or adjourned to a later date or to a different place without notice other than the

announcement thereof at the hearing.

SUBCHAPTER 2

GENERAL PROVISIONS

§3-177-50 Purpose; general applicability. The purpose of these administrative rules is to provide for consistency in the administration of elections. The rules in this chapter are generally applicable to all election matters, unless the context indicates otherwise. [Eff] (Auth: HRS §11-4) (Imp: HRS §11-4)

§3-177-51 Construction of laws. Chapter 1, Hawaii Revised Statutes, consisting of HRS §§1-1 through 1-32, may be consulted in the construction of all statutes and administrative rules. If the chief election officer or a court of competent jurisdiction determines there is a conflict between these rules and the provisions of federal law, such as the Voter Rights Act of 1965, National Voter Registration Act of 1993, Help America Vote Act of 2002, the provisions of the federal law shall control, and the chief election officer or the clerk, as may be applicable under state law, shall perform the duties and discharge the obligations contained in the federal act. [Eff] (Auth: HRS §11-4) (Imp: HRS §§1-1 through 1-32)

§3-177-52 Election officials. Unless the context indicates otherwise, "election official" refers to the chief election officer, county clerk, or any of their designees. [Eff] (Auth: HRS §11-4) (Imp: HRS §11-4)

§3-177-53 Office of the clerk. (a) Office of the clerk or similar words such as "county clerk" or "county elections division" means where the affairs of the clerk, such as processing voter registration and mailing and receipt of ballots, are transacted. This includes, but is not limited to, voter service

centers, satellite offices, and anywhere the clerks exercise control through their staff, or others they delegated authority, over ballots or other election matters associated with the duties and powers of their office conferred by law.

(b) Any requirement relating to ballots being received at the office of the clerk will be deemed satisfied by the taking of custody of ballots at the United States Postal Service post office or from anyone at any location, by the clerk, their staff, or others delegated authority by the clerk, so long as the applicable statutory deadline has been met (e.g., ballots received in such a manner by the close of polls will be deemed to have met the statutory deadline).

(c) Any requirement for a voter service center at the office of the clerk will be deemed satisfied by the use of a physical location temporarily managed by the clerk to perform the services associated with a voter service center.

(d) Any requirement for the receipt of voter registration applications, absentee applications, or other election documents will be deemed satisfied by the taking of custody of it at the United States Postal Service post office or from anyone at any location, by the clerk, their staff, or others delegated authority by the clerk, so long as the applicable statutory deadline has been met.

[Eff] (Auth: HRS §§11-4, 489E-15) (Imp: HRS 11-4, 11-15, 11-16, 11-104, 11-106, 11-107, 11-109, 12-6, 15, 15-9, 489E-15)

§3-177-54 Office of the chief election officer.

(a) "Office of the chief election officer," "office of elections," or similar words, unless the context indicates otherwise, means where the affairs of the chief election officer are transacted. For example, the facilities or locations designated by the chief election officer where nomination papers, ballots or other election materials are received, processed, counted, or tabulated. This includes anywhere the

chief election officer exercises control through themselves, their staff, or others they delegated authority, over ballots or other election matters associated with the duties and powers of their office conferred by law.

(b) Any requirement relating to nomination papers or any other election document being filed at the office of the chief election officer will be deemed satisfied by the filing of those nomination papers or election documents at their main office, satellite office, or the offices of the clerks who are authorized to file nomination papers and other election documents on behalf of the office of elections.

(c) Any requirement for the receipt of nomination papers or other election documents will be deemed satisfied by the taking of custody of it at the United States Postal Service post office or from anyone at any location, by the chief election officer, their staff, or others delegated authority by the chief election officer, so long as the applicable statutory deadline has been met. §3-177-55 Format of election documents. (a) Election documents may be initially created by election officials in or converted to an electronic format. Election documents may be broadly interpreted to include all records and documents related to elections. A document in electronic format may be considered the equivalent of the original.

(b) In addition to paper forms, election officials may use electronic forms, electronic transmission, computer programs, websites, or similar technology to solicit applications from the public or to generate an electronic document containing the relevant information required by law. For example, election officials may use an online voter registration system, online candidate filing system, online ballot delivery, marking, and return system,

online ballot signature rehabilitation system, electronic mail, or fax.

(c) The election official, to the extent not otherwise required by law or by the chief election officer, may choose not to use technology in the manner noted above. Instead, they may choose to rely on a paper based process for some or all of their operations.

(d) Unauthorized paper forms, electronic forms, or computer programs or services to generate electronic documents are not permitted.

(e) Election officials may authorize third parties to use or otherwise duplicate election documents for distribution. However, the mere distribution of any election document by a third party, will not, in and of itself, create an agency with any election official.

(f) Third parties are cautioned that unless authorized under HRS §11-97, it is unlawful for any person to use, print, publish, or distribute information acquired directly or indirectly from any list prepared therefrom. [Eff] (Auth: HRS §11-4, 489E-5, 489E-7, 489E-12, 489E-15, 489E-17, 489E-18) (Imp: HRS §§11-2, 11-4, 11-14, 11-97, 11-106, 11-107, 15-1, 15-4, 489E-5, 489E-7, 489E-12, 489E-15, 489E-17, 489E-18)

§3-177-56 Receipt, filing, or accessibility of election documents. (a) Assuming a document is returned in the manner authorized by election officials, the nature of the document and the totality of the circumstances will determine when it is considered received, filed, or accessible for election purposes.

(b) The receipt of a document is merely a ministerial notation of when a document was received and is not the equivalent of a determination that the document is in proper order and can be counted in the context of a ballot, filed in the context of a nomination paper or similar document, or the applicant treated as registered in the context of a voter

registration application. To the extent a document is initially received and subsequently found not to meet filing requirements, it may be returned to the individual to obtain the necessary signatures or to otherwise be corrected, before being resubmitted. For example, if a candidate submits a nomination paper and it is subsequently determined that it does not have the required amount of verified signatures, the candidate may be provided the document back so they can obtain sufficient signatures and resubmit the document by the filing deadline.

(c) The filing of a document occurs to the extent the underlying statute refers to filing and the election official determines that the document submitted for filing meets the statutory or administrative rule requirement for filing. If a document submitted for filing does not satisfy the requirements for filing it will not be considered filed. Similarly, if it is considered to have met the requirements of filing it will be considered filed at the time of receipt. An initial indication that a document has been filed does not preclude it from being determined not to have met the requirements for filing. In such a case, any such document may be considered void ab initio and not considered filed (i.e., void from the beginning).

(d) Generally, documents may be received during the hours established by the chief election officer or county clerks, with the understanding election officials can adjust hours. Additionally, the county clerk or chief election officer may receive documents at any location. As it relates to the online voter registration system or any other electronic system operated by the chief election officer or the county clerks, which may operate otherwise outside of normal work hours, the document will be deemed filed upon receipt unless determined otherwise. Documents delivered after normal work hours may be treated as received as of the next business day.

(e) A voter standing in line at a place of deposit or voter service center at the closing time provided in HRS §11-131 with the intent to return a

ballot and casting a vote shall be allowed to vote. This does not preclude a voter from otherwise standing in line at any other location established by an election official by the closing time provided in HRS §11-131 with the intent of returning a ballot and casting a vote from being allowed to vote (e.g., the county clerk may establish a receiving area for ballots in the parking lot of a county building, as opposed to requiring voters to go into a county building to get to the voter service center).

(f) As it relates to matters covered by federal law, receipt shall be determined by the applicable federal law. [Eff] (Auth: HRS §11-4) (Imp: HRS §§11-2, 11-4, 11-6, 11-15, 11-15.3, 11-16, 11-62, 11-63, 11-64, 11-77, 11-104, 11-105, 11-106, 11-107, 11-113, 11-117, 11-131, 12-6, 12-8, 15-4, 15-9, 489E-5, 489E-7, 489E-9, 489E-12, 489E-15, 489E-17, 489E-18)

§3-177-57 Districts, precincts, polling places, and ballot types. (a) "District" means, unless otherwise specified, the district of political representation with the fewest eligible voters in a particular election. The use of the general term "district," without reference to a specific office, such as councilmember district, state representative district, state senatorial district, or U.S. Representative District, shall be comparable to the prior utilization of the term "precinct" or "district-precinct" before the enactment of elections by mail. Specifically, election administrators may account for the intersecting boundaries associated with different offices or jurisdictions to establish the "districts" that will be used for administrative and reporting purposes. Similarly, election administrators may take into account historical reporting of results by specific regions or communities in establishing the "districts" that will be used for administrative and reporting purposes.

(b) To the extent a statute continues to refer to a "precinct," unless the context indicates otherwise, it will be understood to have the same definition as a district in subsection (a).

(c) In terms of identifying a district used for administrative or reporting purposes a two-part naming convention may be used. For example, a district may be represented with a hyphen, dash, or forward slash between a state representative district number and the administrative district within it, to facilitate identifying the boundaries of the district in relation to the larger boundaries of intersecting offices or jurisdictions (e.g., DP 07-01 or DP 07/01). Otherwise, a different naming convention may be used, so long as there is on file a description of the boundaries of the district. No changes to any such district boundaries shall be made later than 4:30 p.m. on the tenth day before the close of filing for an election.

(d) "Polling place," "polls," or "pollbooks" unless the context indicates otherwise, refers to a voter service center or something in connection with a voter service center.

(e) "Ballot type," unless the context indicates otherwise, means the unique ballot containing the contests, question, or issues of the voters of a specific district. The ballot type associated with one district may contain the same contests, question, or issues associated with a different ballot type to be used by the voters of a different district, with the only difference being the administrative identification of a ballot type.

(f) Election officials may accommodate other ballot types, as may be necessary, including the distinction between ballots cast at voter service centers, ones associated with ballot packages, those associated with electronic transmission, categories of voters required by state or federal law to have a particular type of ballot, and any other category that facilitates the reporting of results or the inventory control of ballots.

(g) A particular ballot type associated with a district or category of voter may be used for different district or category of voter, if the contests, questions, and issues are the same. To the extent there are differences, they will be addressed

by the counting center officials, pursuant to HAR §3-177-759. [Eff] (Auth: HRS §11-4) (Imp: HRS §§11-1, 11-4, 11-5, 11-11, 11-12, 11-13, 11-15.2, 11-17, 11-18, 11-20, 11-21, 11-22, 11-25, 11-26, 11-92.1, 11-92.3, 11-96, 11-97, 11-102 through 11-109, 11-112, 11-117, 11-138, 11-153, 11-155, 11-172, 11-174.5, 13D-3, 15-2.5, 15-4, 15-11, 15-14, 15D-10, 16-1, 16-22, 16-23, 16-26, 16-27, 16-28, 16-42)

§3-177-58 Saturday, deadlines. To the extent a statutory deadline occurs on a Saturday, the chief election officer or clerk may make themselves available to receive the applicable filing by electronic mail on that day. The circumstances of a deadline occurring on a Saturday will not serve as a basis to extend any statutory deadline. [Eff] (Auth: HRS §11-4, 489E-15) (Imp: HRS §1-29, 11-64, 11-77, 15-4, 489E-15)

§3-177-59 Postponement of elections; natural disaster. (a) The conducting of an election may be postponed in any district or county by the chief election officer or the clerk of a county in the case of county elections if:

- (1) Flooding, high winds, earthquake, tsunami, volcanic eruption, or other natural disaster has occurred in, or in the proximity of, the district, or county; and
- (2) Access to voter service centers are restricted due to:
 - (A) Damage to, or closing of, roads;
 - (B) The absence or suspension of public transportation;
 - (C) The absence of electricity, telephone, or other public telecommunications or utilities;
 - (D) Extensive property damage or personal injury throughout the affected area;
 - (E) Damage to a voter service center or voter service centers which endangers

the health or safety of voters or election officials; or

- (F) Damage to a voter service center or voter service centers which makes it impracticable for such locations to function as election sites.

(b) An election may be postponed no more than twenty-one days from its scheduled date. The chief election officer, or clerk in the case of county elections, may, subject to applicable law, alter the method or manner of voting or counting to accommodate the conditions which necessitated the postponement. [Eff] (Auth: HRS §11-4) (Imp: HRS §§11-92.3, 11-109)

§3-177-60 Compensation for election day officials. (a) All election day officials shall be compensated in accordance with a stipend schedule approved by the chief election officer containing substantially the following information:

[Eff] (Auth: HRS §11-4) (Imp: HRS §11-2)

§3-177-101 Voter pamphlet. (a) The chief election officer or the clerk may produce a voter information pamphlet in printed form or published on an online website.

(b) The chief election officer or clerk may select the district or districts to be covered by the voter information pamphlet. The pamphlet may be made available, by mail, or other methods, to households within the selected district with one or more registered voters. In the alternative, the pamphlet may be made on the office of elections' website or that of the office of the clerk.

(c) The chief election officer or clerk may authorize the pamphlet to contain contact information for the candidates (e.g. telephone number, electronic mail address, fax, or website); provided that the candidate submits the information before the deadline established by the chief election officer or clerk. SUBCHAPTER 4

VOTER REGISTRATION

§3-177-150 Voter registration and related forms.

(a) The affidavit on the application for voter registration form shall be in a form prescribed and approved by the chief election officer containing substantially the following information:

- (1) Name;
- (2) Applicant's Hawaii driver license number or Hawaii state identification card number; provided that:
 - (A) If no driver license or identification card has been issued to the applicant, the last four digits of the applicant's social security number; and
 - (B) If no social security number has been issued to the applicant, an election official or county clerk shall assign the applicant a unique identification number for voter registration purposes and enroll the applicant in the State's computerized voter registration list, if any;
- (3) Date of birth;
- (4) A statement that the applicant is at least sixteen years of age at the time of completing the registration form;
- (5) Residence, including mailing address;
- (6) That the residence stated in the affidavit is not simply because of the person's presence in the State, but that the residence was acquired with the intent to make Hawaii the person's legal residence with all the accompanying obligations therein;
- (7) That the person is a citizen;
- (8) That the person swears to the truth of the allegations by self-subscribing affirmation in the affidavit on application for voter

registration or other form prescribed by the chief election officer;

- (9) A space for a signature of a witness, along with their address and telephone number, when the applicant is unable to sign and instead makes a mark; and
- (10) A statement which says that the office, site, or location at which an applicant registers to vote, or the declination on the part of the applicant to register to vote will remain confidential and will be used for voter registration purposes only.

(b) The voter registration form may also include other information deemed appropriate by the chief election officer including but not limited to the following information:

- (1) Applicant's telephone number;
- (2) Applicant's electronic mail address;
- (3) If the applicant was previously registered in a state other than Hawaii, an authorization by the applicant to cancel the applicant's previous voter registration; and
- (4) A statement notifying applicants of the penalty for falsifying information on the voter registration form or for falsifying the self-subscribing oath.

(c) The following forms shall also be accepted for voter registration:

- (1) Federal Postcard Application (FPCA);
- (2) National Mail Voter Registration Form;
- (3) Any simultaneous application for voter registration and either a driver license or state identification card;
- (4) Any online voter registration application; and
- (5) Any other form or manner of registration required by state or federal law.

(d) The chief election officer may prescribe and approve other forms for the purpose of updating an existing voter registration record, verifying the identity of a voter in relation to a request by a voter, or as part of an inquiry by an election

official to a voter (e.g. a request by a voter to update their voter registration record; an application for an absentee ballot, replacement ballot, or to vote in person at voter service center; or an inquiry to a voter in relation to a voter registration challenge or transfer).

- (1) These forms may require substantially any information required by subsections (a) and (b), to verify the identity of the voter, ensure information is current, or otherwise update the voter registration record. However, if an election official has transmitted a form to a voter or is otherwise satisfied that the individual returning the form is who they claim to be, then the election official may, depending on the circumstances, not require information that would otherwise be required by subsections (a) and (b) for a new voter in conjunction with a transaction with a current voter. For example, if an election mailing is addressed to a specific voter with an enclosed card or form to be returned, elections officials may choose to require a signature, which would be used to verify the identity of the voter. Similarly, if a form is utilized at an election official's office and the voter has presented satisfactory identification to an election official, the provision of information associated in subsections (a) and (b) for a new voter may not be required for a current voter; and
- (2) Depending on the type of application request, other information relevant to the request may be requested (e.g. temporary mailing address, name of designee picking up a ballot for the voter, evidence of statutory eligibility for the presidential ballot, or affirmation indicating compliance with the criteria for the specific request).

§3-177-151 Voter registration forms; distribution. (a) Voter registration forms shall be available at the offices of the clerk and the chief election officer.

(b) The chief election officer shall designate state government agencies that provide public assistance and state funded agencies that provide service to persons with disabilities as voter registration agencies.

§3-177-152 Voter registration forms; collection.

(a) Voter registration forms of new voters shall be received by the clerk no later than 4:30 p.m. on the day of the closing of the register for the election for which the applicant seeks to be registered. Voter registration forms received after the closing of the register for an election shall not be valid for that election and shall be processed by the clerk to register the applicant for the next election, except in regard to any person appearing in person at any voter service center on or before election day, who is otherwise eligible to register to vote under HRS §11-15.2.

(b) Applicants to be new voters, who are not registering to vote in person at a voter service center, shall submit completed voter registration forms in the following manner:

- (1) At designated drop off locations operated by the chief election officer or clerk;

- (2) By delivering the completed voter registration form to the clerk or to designated representatives of the clerk. This includes, but is not limited to, any state motor vehicle authority or voter registration agency, as those terms are used in the National Voter Registration Act of 1993, as amended (e.g. driver license offices);
- (3) By mailing the completed voter registration form to the clerk, provided that the completed voter registration form shall be mailed directly to the clerk and shall be postmarked no later than the day of the closing of the register for the election for which the applicant seeks to be registered. §3-177-153 Voter registration forms; electronic transmission by government agencies. (a) To the extent a government agency serves as a voter registration agency or is associated with a state motor vehicle authority, the agency may electronically transmit the information required to register a voter, if the voter has signed the equivalent of a voter registration form at the voter registration agency. The information transmitted will be considered the equivalent of an original of the voter registration

for all purposes. As it relates to the data sent, the voter registration agency shall also send a copy of the digitized signature in the voter registration agency's database. The digitized signature may be used by election officials to validate and confirm a voter's identity in any election-related matter in which a signature is necessary.

(b) "Voter registration agency" for purposes of this rule means any office designated under Section 7(a)(1) of the National Voter Registration Act of 1993, as amended, as a voter registration agency.

(c) "Associated with a state motor vehicle authority" means any office involved in the issuance of a personal identification document typically issued by a state motor vehicle authority under Section 5 of the National Voter Registration Act of 1993, as amended. §3-177-154 Transfer or change of registration initiated by the voter. (a) Once registered to vote, the voter need not register again or change the voter's registration ("reregister") for any succeeding election except upon change of name or address. If the voter's name has been removed from the registry, the voter shall be required to register to vote pursuant to Chapter 11 HRS.

(b) A voter may be allowed to reregister by completing and submitting any voter registration or related form, to the extent it contains the necessary information for the clerk to update the registration.

(d) The date of reregistration shall be determined pursuant to HAR §3-177-155. [Eff]

§3-177-155 Clerk's approval; when voter becomes registered. (a) Unless contested by a qualified voter, the clerk may accept, as prima facie evidence, the allegations of the applicant in information required in the voter registration form.

(b) The clerk may require the applicant to furnish substantiating evidence to the allegations in the applicant's voter registration form.

(c) To the extent an applicant has satisfied the clerk of the allegations of the voter registration form either in subsection (a) or (b), the voter will be considered registered as of the date of the receipt of the voter registration form, unless there is a basis for an earlier date.

(1) If a voter registration form was mailed to the clerk by the voter registration deadline but received after the deadline, the date of registration will be the date the form was signed; or

(2) If a voter registration form was delivered to a drop off point or to a designated representative, the date of registration will be the date of receipt at the drop off point or to the designated representative.

(d) Notwithstanding anything to the contrary, the clerk may administratively use the date of the signing of the form, to reflect the date of registration, to the extent it has no impact on whether an applicant would otherwise be eligible to vote in the upcoming election (e.g. there is no dispute that the date of actual receipt or the application of the provisions of the National Voter Registration Act of 1993, as amended, would otherwise reflect that the applicable voter registration deadline had been met). §3-177-156 Determination of residence. (a) In addition to the rules for determining residency provided in HRS §11-13, the following shall also be applicable in determining the residence of a person for election purposes:

- (1) The residence of a person is that place in which the person's habitation is fixed, where the person intends to remain, and when absent, intends to return;
- (2) When a person has more than one dwelling:
 - (A) If a person maintains a homeowner's property tax exemption on one of the dwellings, there shall be a rebuttable presumption that the dwelling subject to the homeowner's property tax exemption is that person's residence;
 - (B) If a person claims a renter's tax credit for one of the dwellings, there shall be a rebuttable presumption that the dwelling, subject to the renter's tax credit is that person's residence; and
 - (C) If a person has not physically lived at any one dwelling within the year immediately preceding the election, there shall be a rebuttable presumption that the dwelling in which the person has not lived at is not the person's residence.
- (3) When a residence address does not have a street number or a person is considered homeless, the following information shall be required:
 - (A) A description of the location of the residence sufficient to ascertain a voting district and precinct; and
 - (B) A mailing address within the state, and where the person is legally entitled and does in fact receive mail.

(4) When a person of this State is employed in the service of the United States, is a student of an institution of learning, or is in an institution, asylum, or prison:

(A) A person does not gain or lose residence in a precinct or this State solely by reason of being present in or absent from a precinct or this State; and

(B) A person once having established residency in a precinct shall be allowed to register and vote and to continue to vote from the address at which the person is registered even though, while residing outside of the precinct or the State, the person no longer has a place of abode in the precinct and the person's intent to return to the precinct may be uncertain.

(b) Should a person's circumstances change and the person takes up a domicile in another precinct or state, there shall be a rebuttable presumption that the new domicile is that person's residence.

(c) For purposes of this section, a rebuttable presumption is a presumption considered true unless proven false by evidence to the contrary.

§3-177-157 National Voter Registration Act of 1993, as amended; general program to remove ineligible voters, using change of address information supplied by the postal service. (a) The clerk shall, in accordance with Section 8(a)(4) of the National Voter Registration Act of 1993, as amended, conduct a general program that makes a reasonable effort to remove the names of ineligible voters by reason of death or change in residence, in accordance with

Section 8(b), (c), and (d), from the lists of eligible voters.

(b) The clerk may meet the requirements of subsection (a) of this rule by establishing a program under which -

- (1) Change-of-address information supplied by the U.S. Postal Service through its licensees is used to identify registrants whose addresses may have changed; and
- (2) If it appears from information provided by the U.S. Postal Service that--
 - (A) A registrant has moved to a different residence address in the same county in which the registrant is currently registered, the clerk changes the registration record to show the new address and sends the registrant a notice of the change by forwardable mail and a postage prepaid pre-addressed return form by which the registrant may verify or correct the address information; or
 - (B) The registrant has moved to a different residence address not in the same county, the clerk uses the notice procedure described in Section 8(d) (2) of the National Voter Registration Act of 1993, as amended, to confirm the change of address.

(c) The clerk's use of change-of-address information supplied by the U.S. Postal Service through its licensees to identify registrants whose addresses may have changed, as described in subsection (b), to meet the requirements of subsection (a), does not preclude the clerk from using a different program to meet the requirements of subsection (a). The clerk may use other bases to justify using the notice procedure described in Section 8(d) (2) of the National Voter Registration Act of 1993, as amended, to remove registrants due to a change in residence including, but not limited to, the following:

- (1) Sending a notice to every registered voter at specified intervals (e.g. once a year or before an election);
- (2) Sending a notice to those who have turned in their driver licenses;
- (3) Sending a notice to those who have not voted or engaged in any voter activity for a period of two years. "Voter activity" means casting a ballot in any election, filing a voter registration form, making a written request for an absentee ballot, updating a voting address, or otherwise initiating contact with election officials that results in a notation in the voter's registration record; or
- (4) Sending a notice to those that a government agency has informed election officials have moved out of the county.

(d) The clerk shall not remove the name of a registrant from the voter registration rolls on the ground that the registrant has changed residence unless the registrant—

- (1) Confirms in writing that the registrant has changed residence to a place outside the county in which the registrant is registered; or
- (2) Has failed to respond to a notice described in subsection (i) of this rule and has not voted or appeared to vote (and, if necessary, correct the clerk's record of the registrant's address) in an election during the period beginning on the date of the notice and ending on the day after the date of the second general election for Federal office that occurs after the date of the notice.

(e) A "confirmation notice" is a postage prepaid and pre-addressed return card, sent by forwardable mail, on which the registrant may state his or her current address, together with a notice to the following effect:

- (1) If the registrant did not change his or her residence, or changed residence but remained in the county, the registrant should return the card not later than the time provided for mail registration under Section 8(a)(1)(B) of the National Voter Registration Act of 1993, as amended. If the card is not returned, affirmation or confirmation of the registrant's address may be required before the registrant is permitted to vote in an election during the period beginning on the date of the notice and ending on the day after the date of the second general election for Federal office that occurs after the date of the notice, and if the registrant does not vote in an election during that period the registrant's name will be removed from the list of eligible voters; and
- (2) If the registrant has changed residence to a place outside the county in which the registrant is registered, information concerning how the registrant can continue to be eligible to vote. [Eff]

§3-177-158 Transfer or change of registration initiated by the clerk. (a) The clerk shall use all reliable and pertinent information to keep the general county register up to date.

(b) The clerk may request information from the courts, the department of health, utility companies, condominium and apartment associations, and other agencies to gather information to keep the register up to date.

(c) Where the clerk has evidence indicating that a voter's registration should be transferred, the clerk shall notify the registered voter by first class mail of the intent to transfer. The notice shall

include:

- (1) Any evidence indicating why the transfer or change should be made;
- (2) The residence, and district of the voter according to current registration lists and any alleged new address and district;
- (3) A reply form for the voter to agree or object to the transfer, to list the voter's reasons for the objection, and to sign; and
- (4) A statement informing the voter to complete and return the reply form to the clerk by 4:30 p.m. on the tenth day after the form was mailed to prevent the transfer of registration from being completed.

(d) The clerk shall transfer the registration of a voter who does not respond by 4:30 p.m. on the fifteenth day after the form was mailed.

(e) A voter may contest the transfer on or before election day by presenting evidence to rebut the transfer which, if found valid by the clerk or the board of registration, shall entitle the voter to restore the voter's registration to what it was before the transfer.

(f) Notwithstanding anything to the contrary, a voter may be transferred to another district, pursuant to the National Voter Registration Act of 1993, as amended. [Eff] (Auth: HRS §11-4, 52 USC §20507) (Imp: HRS §§11-20, 11-21, 11-22, 11-23, 52 USC §20507)

(c) Voter registration information declared confidential pursuant to this section shall not be released, even for election or government purposes; provided that the optional mailing address set forth in the confidential registration application may be released in place of the person's residence address for election or government purposes.

(d) The clerk may request additional information regarding the reasons justifying confidential treatment.

(e) In no event shall confidential registration be released without notifying the person.

(f) Confidential registration shall retain its confidential status for two election cycles, after which time the person must reapply for confidential registration pursuant to this section, unless the clerk waives the requirement.

(g) A challenge to the voter registration of a person who has been granted confidential registration shall be processed in accordance with the procedures set forth in HAR §3-177-205.

(h) Notwithstanding anything to the contrary, when a program participant in the Chapter 801G, Hawaii Revised Statutes address confidentiality program submits a current and valid address confidentiality program authorization card to an election official, the election official shall accept the substitute address on the card as the program participant's

actual address to be used when creating a new public record.

- (1) Election officials shall use a program participant's actual address for purposes of determining residency pursuant to HRS §11-13;
- (2) The substitute address shall be used for all other purposes and the program participant's name, mailing address, actual address, or telephone number shall not be published in any list or register;
- (3) Without regard to subsection (f), the voter will continue to be treated as a special class of confidential voter until such time as they are informed by the participant or the address confidentiality program that the voter is no longer a participant;
- (4) Disclosure by an election official of a program participant's actual address shall be prohibited unless required by order of a court; and
- (5) To the extent there is a voter challenge of a participant where the residence address is sought, the residence address will not be provided unless required by order of a court. [Eff] (Auth: HRS §§11-4, 11-14.5) (Imp: HRS §11-14.5)

(b) Notwithstanding subsection (a), a voter's full name, district/precinct designation, and voter status is public information available for any purpose.

(c) Voter registration information that is not public under subsection (b), excluding the voter's

full or last four digits of the social security number, driver license number, state identification card number, electronic mail address, telephone number, or date of birth, may, as determined by the clerk, be made available for an election purpose (e.g. the clerk may not disclose information they determine would interfere with the operations of elections or unduly compromise the privacy of voters). At a minimum, unless otherwise prohibited by law, the residence address and mailing address will be provided.

SUBCHAPTER 10

BALLOTS

§3-177-450 Ballot definition. (a) The term "ballot" shall be broadly defined, so as to permit voters to vote, to mean the following:

- (1) A written or printed, or partly written and partly printed paper or papers containing the names of persons to be voted for, the office to be filled, and the questions or issues to be voted on;
- (2) A ballot used in an election by mail, including a ballot approved for electronic transmission. "Electronic transmission" refers the transmission of a blank or voted ballot by facsimile or electronic mail delivery, or the use of an online ballot delivery and return system, which may include the ability to mark the ballot.
 - (A) HTML or similar technology may be used to represent a ballot including all contests and questions that the voter may vote on that is used in electronic transmission. Any such representation will be considered a ballot for purposes of these rules;
 - (B) HTML or similar technology may be used to represent how a voter voted. The manner of the representation of how the voter voted shall be considered a ballot. This may be in the form of an electronic image, which may be in a PDF or similar format, that contains the names of persons to be voted for, the office to be filled, and the questions or issues to be voted on, along with marks indicating how the voter vote. Additionally, the electronic system may generate a ballot summary, to represent how the voter voted, which may be

considered a ballot for purposes of these rules. The ballot summary, similar to a voter verifiable paper audit trail, is a complete record of the ballot selections that is verified by the voter, which may be in a PDF or similar format, before being transmitted back through the electronic transmission system;

(C) To the extent an electronic image associated with the electronic transmission system is printed and not electronically returned, but instead is returned by mail or in-person, it shall be considered a ballot for purposes of these rules; or

(D) A facsimile of a ballot which is sent as an attachment to an electronic mail message or as part of a facsimile transmission shall be considered a ballot. In either case, the return of a voted facsimile of the ballot shall also be considered a ballot for purposes of these rules.

(3) A ballot may consist of one or more cards or pieces of paper, or one face of a card or piece of paper, or a portion of the face of a card or piece of paper, depending on the number of offices, candidates to be elected thereto, questions or issues to be voted on, and the voting system in use.

(b) A "voter verifiable paper audit trail" means the paper record that constitutes a complete record of ballot selections that is verified by the voter. To the extent, the vote of a voter cannot be determined, in relation to an electronic voting system due to technical issues, the voter verifiable paper audit trail may be considered the equivalent of a ballot.

(c) A "defective ballot" means any ballot delivered to the counting center in accordance with HRS §11-152 that cannot be read by the vote counting system. This includes, but is not limited to, any

ballot summary associated with electronic transmission, any voter verifiable paper audit trail associated with an underlying electronic voting system that cannot report how the voter voted, and any other damaged ballot that cannot be read by the ballot reading device.

(d) "Duplicate ballot" means a ballot used solely for the purpose of reproducing a defective ballot for counting and tabulation. [Eff]

§3-177-451 Ballot design and arrangement; candidate vacancies. (a) The design and arrangement of the ballot shall meet the requirements of the voting system. The maximum number of candidates or ballot questions for which the voter is legally entitled to vote in any given case shall be clearly indicated.

(b) In case of death, withdrawal, or disqualification of any candidate after filing, the applicable provisions of HRS §§11-117 and 11-118 shall apply.

(c) If the applicable deadline after a vacancy occurs is a Saturday, then the chief election officer, or clerk in the case of a county office, shall be available to receive the applicable filing via electronic mail on that day. The circumstances of the deadline occurring on a Saturday will not serve as a basis to extend the deadline.

(d) The chief election officer or county clerk in county elections may waive any or all of the requirements in HRS §11-118 under the following special circumstance that it is determined that there is still sufficient time to insert an alternate's name without putting the administration of the election at undue risk. used at a voter service center, election officials will have the ability to print ballots in the county. Notwithstanding anything to the contrary, any type of ballot authorized by election officials may be used in the voter service center. [Eff]

The voter shall designate each choice by completely filling in the voting position area next to the name of the candidate for whom the voter desires to vote or the question on the ballot for which the voter desires to vote.

(b) The chief election officer may authorize the use of a ballot marking device, to the extent the voter is able to review the marksense ballot before casting it.

(c) The voting position area will be designated by the chief election officer on the ballot. The voting position area may include, but not be limited

to circles, squares, rectangles, or other shapes. In addition, the chief election officer will determine whether the voting position area is on the right or left hand side of a candidate's name or the ballot question.

SUBCHAPTER 11

VOTER SERVICE CENTER AND PLACE OF DEPOSIT - GENERALLY

§3-177-500 Voter service center; general operation and services. (a) Voter service centers shall be established at the office of the clerk and may be established at additional locations within a county as may be designated by the clerk to service the needs of a county's voters. The clerk shall make arrangements for the rental or erection of suitable shelter for the establishment of a voter service center whenever public buildings are not available and shall cause these voter service centers to be equipped with the necessary facilities for lighting, ventilation, and equipment needed for elections.

(b) The office of the clerk refers to where the affairs of the clerk are transacted. The clerk may use different locations for different affairs of their office. As such, the clerk may designate a location to serve as the office of the clerk for purposes of the operation of a voter service center. This location may differ from the location normally associated with the clerk for other duties. For example, while the clerk may operate from one location for purposes of supporting their council or other duties, they may designate a location for the operation of the voter service center, so as to take into consideration the needs associated with the services to be provided (e.g. a larger facility for servicing the public, parking considerations, and other related matters).

(c) Voter service centers shall be open from the tenth business day preceding the day of the election during regular business hours until the time provided in HRS §11-131 on the date of the election and at the same times statewide. Likewise, it will provide the services specified under the definition of a "voter service center" in this rule.

(d) A "voter service center" means a location established to service all of the following purposes:

- (1) Receive return envelopes for absentee ballots pursuant to chapter 15, HRS;
- (2) Received returned identification envelopes in an election by mail;
- (3) Provide voting machine services for persons with disabilities pursuant to the Help America Vote Act of 2002, P.L. 107-252, as amended, and any other federal or state law relating persons with disabilities;
- (4) Provide any other voting services as provided by laws; and
- (5) Any other purposes the chief election officer or clerk may deem necessary if a natural disaster or other exigent circumstance occurs before an election.

(e) Voting machine services may be provided to voters with or without disabilities. Voting machine services may involve any voting system or device or combination of systems or devices. The provision of a particular type of voting machine service at one voter service center will not require that the same type or types of voting machines services be provided at another voter services center. For example, a voter service center may decide to only utilize direct recording electronic voting devices that generate a voter verifiable paper audit trail, while another may choose to utilize a marksense ballot voting system and a direct recording electronic voting device that generate a voter verifiable paper audit trail, while finally another might utilize a ballot marking device. In the end, each of these is permissible, so long as the voter is provided services that would otherwise comply with Help America Vote Act of 2002, P.L. 107-252, as amended, and any other federal or state law relating persons with disabilities.

(f) "Provide any other voting service as provided by law" as used in this rule concerning voter service centers refers to any service that explicitly by statute is defined as being provided at a voter service center. For example, HRS §11-15.2 provides that "a person who is eligible to vote but is not registered to vote may register by appearing in person

at any voter service center on or before election day." To the extent a service is not defined as occurring at a voter service center it may not be provided as part of the operation of the voter service center. For example, a voter service center may not issue replacement ballots, as it is not statutorily a service required to be provided at a voter service center. Instead, a separate statutory process addresses the issuances of replacement ballots. In such a situation, the voter service center officials would inform the voter of the specific location or procedures to obtain a replacement ballot, if the voter does not wish to utilize the voting machine services available at the voter service center.

(g) To the extent that a proposed or existing voter service center cannot comply with subsection (c) the clerk shall document the reasons for such a variation in its operation either in the hours or days of its operation or the services that it can provide. Upon a finding by the clerk that it is in the interest of the voters of a county to operate a proposed voter service center or to continue to operate an existing voter services center, it may do so, so long as appropriate notice to the public is provided of any variation in the hours or days of its operation or the services that it can provide. For example, if due to a lack of available personnel, shortage of facilities that can be used for ten business days, or similar reasons a modified schedule or modified services to be provided may be considered by the clerk.

(h) The hours of voting at voter service center shall be regular business hours as prescribed HRS §11-109 and by the clerk. However, on election day the hours of voting will be from 7:00 a.m. until 7:00 p.m. of that day. If at 7:00 p.m. on an election day, any voter is standing in line at a voter service center with the desire of entering and voting, but due to the voter service center being overcrowded has been unable to do so, the voter shall be allowed to vote. No voter shall be permitted to enter or join the line after the prescribed hours of voting specified in HRS §11-131. [Eff] (Auth: HRS §11-4) (Imp: HRS

§§11-1, 11-15.2, 11-105, 11-109, 11-131, ch. 15)

§3-177-501 Voter service center; security and regulation of activities. (a) The clerk shall designate the voter service centers and shall assign personnel and issue operating instructions which provide for the security of all ballots and secrecy of the voted ballots.

(b) The clerk shall post in a conspicuous place, prior to the opening of the voter service center, a map designating an area around the voter service center for purposes of HRS §19-6.

(c) The clerk may designate the area of the voter service center to encompass an area up to the area prescribed in HRS §11-132.

(d) Admission within the voter service center shall be limited to the following:

- (1) Election officials;
- (2) Watchers, if any, pursuant to HRS §11-77;
- (3) Candidates, provided that a candidate engaged in any activity that would otherwise attract attention including, but not limited to interviews and press conferences, shall do so outside the boundary set forth pursuant to this rule;
- (4) Any voters engaged in voting, going to vote or returning from voting;
- (5) Any person authorized to assist a voter; and
- (6) Any person or nonvoter group authorized by the clerk to observe the election for educational purposes, provided that they conduct themselves so that the conduct of the person or group does not interfere with the election process; and
- (7) A child for purposes of observing the voting process when accompanied by an adult who is voting, provided that this activity does not disrupt or interfere with normal voting procedures. [Eff] (Auth: HRS §11-4) (Imp: HRS §§11-77, 11-109, 11-132, 19-6)

§3-177-502 Voter service center; collection of voting materials. (a) The chief election officer, clerk, or designated representative may authorize the collection of voted ballots, vote data storage media, voter verifiable paper audit trails, and similar items before and after the closing of the voter service center on any day of operation.

(b) The voting materials from the voter service center shall be transported to the counting center or designated locations in secured containers in accordance with procedures established by the chief election officer, clerk, or designated representative.

(c) Other election materials will be sealed and returned in accordance with procedures established by the chief election officer, clerk, or designated representative. [Eff] (Auth: HRS §§11-4, 11-154) (Imp: HRS §§11-152, 11-154, 15-10)

§3-177-503 Voter service center; return of materials. (a) After the voter service center closes on election day, or any earlier day as determined by the clerk, the voter service center officials shall follow the procedures for closing the voter service center. The voter service center officials shall return all of the following materials to the designated supply collection center:

- (1) Sealed ballot transport containers containing unissued ballot packets or ballots;
- (2) Supply box; and
- (3) Other election documents and materials as specified by the chief election officer or clerk.

(b) Procedures associated with the return of specific voter service center materials prior to election day may be established by the chief election officer, clerk, or designated representative. [Eff] (Auth: HRS §11-4) (Imp: HRS §§11-109, 11-154)

§3-177-504 Voter service center; officials.

The clerk may employ regular employees or temporary employees of their office as voter service center officials. Additionally, the clerk may employ election day officials, enter into personal services contracts, or use a temporary staffing agency for the employment of voter service center officials.
[Eff] (Auth: HRS §11-4) (Imp: §11-109)

§3-177-505 Voter service center; watchers. (a) Each qualified political party shall:

- (1) Be entitled to appoint watchers to serve at each voter service center in which the candidates of such party are on the ballot so long as there is only one watcher of the political party present at a time; and
- (2) Submit a list of watchers not later than 4:30 p.m. on the twentieth day before any election to the clerk.

(b) Each voter service center watcher shall:

- (1) Receive identification from the clerk;
- (2) Be permitted to observe the conduct of the election in the voter service center to which they are assigned.

(c) A designated voter service center watcher may relieve another voter service center watcher as long as there is not more than one represented at the voter service center at a time.

(d) The voter service center watcher shall not interfere with the orderly process of the election.

(e) Any violation of the election law shall be reported to the clerk. If the clerk fails to correct the violation, the voter service center watcher may appeal to the chief election officer. [Eff] (Auth: HRS §11-4) (Imp: HRS §11-77)

§3-177-506 Places of deposit; generally. (a) The clerk may designate and provide for places of deposit to be open five business days before the election until 7:00 p.m. on the day of the election; provided that the locations and apparatus for receiving voted ballots can be securely maintained during the period

of use for each election, and as may be permitted by the operational hours.

(b) To the extent that places of deposit, due to a need to address security or operational hours, cannot be open uniformly across the county, the clerk shall document the reasons for such a variation in its operation. Upon a finding by the clerk that it is in the interest of the voters of a county to operate a proposed place of deposit or to continue to operate an existing place of deposit, the clerk may do so, so long as appropriate notice to the public is provided of any variation in operation of the place of deposit. For example, if due to a lack of available personnel, shortage of facilities that can be used for five business days, security matters, or similar reasons a modified schedule or modified services to be provided may be considered by the clerk.

(c) The clerk shall account for the security of the places of deposit and the ballots cast at such locations. [Eff] (Auth: HRS §11-4) (Imp: HRS §§11-109)

§3-177-507 Voter service center and place of deposit; campaign activities. (a) No person at a voter service center, place of deposit, or its appurtenances shall be permitted to exhibit on his or her person, or distribute any communication which is in any way intended to directly or indirectly solicit, influence, or address any candidate contest or question on the ballot. An official shall request that any person in violation of this rule remove or cover any clothing, button, hat, armband or other campaign material that is being exhibited by the person. Any person who refuses to comply with the request of the official shall be required to leave the area prescribed in HRS §11-132.

(b) Except when a vehicle is used by a person traveling to or from a voter service center or place of deposit for the purpose of voting, a vehicle parked within the area prescribed in HRS §11-132, may not exhibit any sign, bumper sticker, or other campaign

material on said vehicle. [Eff] (Auth: HRS §§11-4, 11-132) (Imp: HRS §§11-132, 19-6)

§3-177-508 Voter service center and place of deposit; non-campaign activities. The chief election officer or the clerk as designated by the chief election officer may establish procedures to ensure that non-electioneering activities, including exit polling, within the area prescribed in HRS §11-132, do not interfere in any way with the orderly conduct of elections. Such procedures may include:

- (1) The prohibition of commercial activity, other than those which were pre-existing, involving advertising, solicitation or sales;
- (2) Requiring prior notification, ten days before an election, and approval for any organized activity;
- (3) Limiting the number and proximity of persons involved or places where the activity takes place;
- (4) The prohibition of loudspeakers or other amplification devices;
- (5) Requiring that the clerk be advised of the activity;

SUBCHAPTER 12

VOTER SERVICE CENTER - VOTING PROCEDURE

§3-177-550 Voter service center; verification of the identity of currently registered voters. (a) The voter may be required to fill out an application that will be used in conjunction with the statewide voter registration system. In the alternative, they may sign a poll book, record book, or similar means of documenting matters depending on how the voter service center is operated. In either case, the poll book, record book, application, or similar means of documenting matters shall include the ability for the voter to make a mark in the appropriate place if the voter is unable to write for reasons of illiteracy, blindness, or other physical disability. The voter service center official shall print "witnessed by" next to the voter's mark and sign the voter service center official's name.

(b) To the extent the clerk utilizes an application as part of the voting process, the identity of a voter will be considered verified upon the acceptance and determination by an election official that the application is in proper order. The application additionally may serve to update a voter's registration record or permit an individual to register to vote for the first time.

(c) Any such application used for purposes of verification will require the voter to provide their name, date of birth, residence address, and mailing address. Additionally, the voter will provide their Hawaii Driver License Number, Hawaii State Identification number, or the last four digits of their Social Security Number, if they do not have a Hawaii Driver License or Hawaii State Identification Card. If the voter indicates they originally had none of these when they initially registered and instead were issued a unique identification number by election officials, then the applicant shall write that number on the application. The contents of the application

may additionally require any information that might otherwise be required for a first time registration or to update a current registration.

(d) Any such application used for verification purposes will not be initially considered in proper order if the individual's name, date of birth, or the identification number they provided (i.e. Hawaii Driver License Number, Hawaii State Identification Card Number, or Social Security Number) does not match the statewide voter registration. In the event of a non-match, the application will be treated initially as a new registration or provisional ballot application, to the extent it contains the necessary information. Otherwise, the applicant will be directed to fill out an application that can serve those purposes.

(e) A clerk may choose to verify a voter's identity, without the above application. As such, the voter may be asked for one of the following:

- (1) The provision of a current and valid photo identification:
 - (A) Hawaii State Driver License;
 - (B) Hawaii State Identification Card;
 - (C) Hawaii Student Identification Card;
 - (D) U.S. Department of Defense Identification Card (including identification cards issued to dependents);
 - (E) U.S. Passport or U.S. Passport Card; or
 - (F) Driver License or State Photo Identity Card issued by a Department of Motor Vehicles (or equivalent) in another U.S. jurisdiction.
- (2) The provision of a current utility bill, bank statement, government check, paycheck, or other government document showing name and address;
- (3) An oral recitation of specific information in the voter's record to the satisfaction of clerk or their designee that the individual is who they claim to be (e.g. name, residence address, mailing address, date of

birth, last four digits of the Social Security Number, or any combination of information in the record);

- (4) The provision in writing of the information noted in subsection (d)(3);
- (5) The provision of a witness, who is a registered voter, who will vouch in writing for the identity of the voter; or
- (6) The provision of evidence that the individual considers sufficient to establish their identity. The individual has the burden of proof in this situation to satisfy the clerk or their designee by the preponderance of the evidence that the individual is who they claim to be.

(f) To the extent everything is in order, the individual will be able to proceed to vote in the manner associated with the voter service center.

(g) In the event an individual is not issued a ballot, they will retain whatever right they may have to a provisional ballot and the corresponding procedures related to the disposition of such ballots.

(h) Nothing in this rule shall be construed as preventing the clerk from exercising their underlying authority to demand that an individual furnish substantiating evidence to allegations in their voter registration application or any application related to voter registration. This includes any application at a voter service center that could serve to register an individual or to update their registration. For example, a clerk may be satisfied as to the identity of an applicant but may question other aspects of the application, such as residence, and correspondingly demand substantiating evidence. Likewise, this rule does not foreclose the ability of another voter properly in the voter service center from challenging the voter on the grounds that the voter is not who they allege to be or that the voter is not entitled to vote. [Eff] (Auth: HRS §§11-4, 52 USC §21082, 52 USC §21083) (Imp: HRS §§11-4, 11-11, 11-15, 11-16, 11-18, 11-20, 11-21, 11-22, 11-23, 11-109, 52 USC §21082, 52 USC §21083)

§3-177-551 Voter service center; verification of the identity of applicants registering in-person to vote. (a) To the extent the clerk indicates that an individual has just been registered in-person at the voter service center, the registration process will be treated as having verified the identity of the voter.

(b) In the event an individual is not issued a ballot, they will retain whatever right they may have to a provisional ballot and the corresponding procedures related to the disposition of such ballots.

(c) Nothing in this rule shall be construed as preventing the clerk from exercising their underlying authority to demand that an individual furnish substantiating evidence to allegations in their voter registration application or any application related to voter registration. Likewise, this rule does not foreclose the ability of another voter properly in the voter service center from challenging the voter on the grounds that the voter is not who they allege to be or that the voter is not entitled to vote. [Eff] (Auth: HRS §§11-4, 52 USC §21082, 52 USC §21083) (Imp: HRS §§11-4, 11-11, 11-15, 11-16, 11-18, 11-20, 11-21, 11-22, 11-23, 11-109, 52 USC §21082, 52 USC §21083)

§3-177-552 Demonstration ballots. (a) For each election, there shall be provided as many demonstration ballots as the chief election officer, clerk, or designated representative deems appropriate.

(b) The demonstration ballots shall be designed to prevent tabulation by the computer programmed to count the ballots in the election.

(c) The demonstration ballots may not contain the names of candidates or ballot questions to be voted on in the election. [Eff] (Auth: HRS §11-4) (Imp: HRS §§11-2, 11-4, 11-109)

§3-177-553 Voter service center; marksense ballots; spoiled. (a) If a voter spoils a ballot in the process of voting, or receives a spoiled ballot,

the voter shall be issued another ballot, by the voter service center officials.

(b) Before issuing the new ballot, the voter service center official shall:

- (1) Give the voter a utility envelope, ask the voter to place the spoiled ballot in the envelope, and seal the envelope;
- (2) Write "spoiled" across the face of the envelope and sign the voter service center official's name;
- (3) Deposit the utility envelope in the spoiled ballot envelope;
- (4) Write in the poll book, record book, application, or similar means of documenting matters "spoiled ballot"; and
- (5) Have the voter place the voter's initials next to the words "spoiled ballot."

(c) The voter service center officials shall, after the above procedures in subsection (b) are completed, give the voter a new ballot. [Eff]
(Auth: HRS §11-4) (Imp: HRS §11-109, 11-140)

§3-177-554 Provisional voting; general procedures. (a) If an individual declares that such individual is a registered voter in the jurisdiction in which the individual desires to vote and that the individual is eligible to vote in an election for Federal office, but the name of the individual does not appear on the official list of eligible voters for the voter service center or an election official asserts that the individual is not eligible to vote, such individual shall be permitted to cast a provisional ballot as follows:

- (1) An election official shall notify the individual that the individual may cast a provisional ballot in that election;
- (2) The individual shall be permitted to cast a provisional ballot at that voter service center upon the execution of a written affirmation, by the individual before an election official, stating that the

individual is

(A) a registered voter in the jurisdiction in which the individual desires to vote; and

(B) eligible to vote in that election.

(3) The written affirmation shall be in a form prescribed by the chief election officer and shall contain substantially all the information required to register to vote under HRS §11-15 and shall document that the individual is requesting a provisional ballot.

(b) An election official shall transmit the provisional ballot to the county clerk for prompt verification.

(c) The adjudication of provisional ballots shall be as follows:

(1) If any part of the provisional ballot application form or affirmation statement is incomplete, not executed, or altered, the provisional ballot may be not be counted.

(2) If the clerk determines the individual is eligible under state law to vote in the district the individual wishes to vote in, the provisional ballot shall be counted in accordance with state law.

(3) If the clerk determines the individual is not eligible to vote in the district associated with the provisional ballot was cast, then the provisional ballot shall not be counted.

(d) The individual will be able to access for free a system by which the individual may discover whether the vote of that individual was counted, and, if the vote was not counted, the reason that the vote was not counted.

(e) The term "jurisdiction" for purposes of provisional voting refers to the specific voting precinct where an individual must be registered, in order to vote on the ballot designated for that precinct. It does not refer to a county, state, or federal jurisdiction. As such, if an individual casts

a provisional ballot in a precinct the individual is not properly registered in, no portion of the provisional ballot will be counted.

(f) The individual will have until the fifth business day after the election to provide the clerk with any document or information the individual may want the clerk to consider in determining the individual's eligibility under state law.

(g) All provisions of Help America Vote Act of 2002, as amended, regarding provisional voting in federal elections shall be followed. [Eff]

BALLOT PACKAGE PROCEDURES

§3-177-600 Ballot packages; contents; eligibility. (a) Unless the context indicates otherwise, a ballot package is used by any voter in an election by mail, unless the voter votes in-person at a voter service center by using a voting device (e.g. a voter directly using a voting system such as a direct recording electronic device or a marksense ballot counter).

(b) A ballot package, unless it is transmitted electronically, consists of the following:

- (1) An official ballot;
- (2) A return identification envelope with postage prepaid;
- (3) A secrecy envelope or secrecy sleeve;
- (4) The instructions provided for in HRS §11-104; and

The statement may appear on the return identification envelope or separately, depending on the means of transmission utilized or authorized by the clerk.

(c) A ballot package may be sent by electronic transmission. "Electronic transmission" refers to transmission by facsimile or electronic mail delivery, or the use of an online ballot and return system, which may include the ability to mark the ballot. An electronic ballot package additionally will include a waiver of secrecy under HRS §11-137. This waiver may

be combined with the affirmation statement. Additionally, instructions on how to return the ballot or ballot summary, depending on the type of electronic ballot system used, by electronic transmission or alternatively by mail, may be included.

(d) Ballot packages may generally be issued in the following contexts:

- (1) To any registered voter who has not already voted and is legally eligible under state or federal law to receive a ballot;

(b) In determining the initial mailing date of the ballot package, the clerk shall consider the mailing place of origin and the most recent postal service delivery standards. Public notice of the date or dates on which the initial ballot packages are to be mailed shall be given by the clerks before the ballot packages are made available to voters.

(c) The clerk shall continue mailing ballot packages to voters who update their voter registration address no later than fourteen days before the date of the election. However, the clerk may continue to mail ballots to those who have updated their voter

registration address after the fourteenth day, if the clerk believes there is sufficient time for the voter to return the ballot by the applicable deadline.

(d) The clerk shall not mail a ballot package to any voter in the county register who is an inactive voter or to a voter otherwise having an outdated or non-deliverable mailing address. [Eff]

(b) A covered voter who requests that a ballot and balloting materials be sent to the voter by electronic transmission may choose facsimile transmission or electronic mail delivery, or, if offered by the voter's county, internet delivery.

(c) The clerk in each jurisdiction charged with distributing a ballot and balloting materials shall transmit the ballot and balloting materials to the voter using the means of transmission chosen by the voter.

(d) If a ballot application from a covered voter arrives after the county begins transmitting ballots and balloting materials to voters, the official charged with distributing ballots and balloting materials shall transmit them to the voter no later than two business days or as soon as allowable after the application arrives. §3-177-603 Ballot packages; timing of transmittal, absentee requests. (a) Notwithstanding any law to the contrary, as it relates to ballot packages requested pursuant to HRS §15-4, any request received by the seventh day prior to an election seeking the mailing of a ballot package shall be processed and the ballot package mailed to the voter. Requests received on the last day specified in HRS §15-4 will result in a ballot package being mailed no later than twenty-four hours after receipt.

(b) The clerk may continue to mail ballots to those whose requests have been received after the seventh day prior to an election, if the clerk believes there is sufficient time for the voter to return the ballot by the applicable deadline.

§3-177-605 Ballot packages; timing of transmittal, in-person pick up. Notwithstanding any law to the contrary, a voter may request that the clerk make the ballot package available for pick up by

them or through an intermediary other than the voter's employer or agent of the employer, agent of the voter's labor union, or any candidate listed on the ballot. However, the clerk may limit the processing of such requests to no earlier than the fifth day prior to an election. Additionally, the clerk will determine where the ballot package will be made available for pickup. A single location may be determined by the clerk for such purposes (e.g. the issuance of ballot packages may not occur at a voter service center but instead at a location determined by the clerk). [Eff] (Auth: HRS §11-4) (Imp: HRS §§11-102, 11-105, 11-140, 15-4, 15-5, 15D-9)

(a) If a ballot package is not received by a voter by the fifth day before the date of the election or a voter otherwise requires a replacement ballot within five days of an election, the voter may request that a ballot be forwarded by electronic transmission; provided that a voter with special needs may request that a ballot be forwarded by electronic transmission at any time.

(b) "Voter with special needs" for purpose of this rule includes an individual with a disability. The term "disability" refers to a physical or mental impairment that substantially limits one or more major life activities of an individual. "Major life activities" include caring for one's self, walking, seeing, hearing, speaking, breathing, working, performing manual tasks, and learning. A "voter with special needs" may also include any voter that the clerk determines would otherwise not be able to return their ballot by the day of the election, if the ballot were to be transmitted at its originally scheduled time (e.g. a voter who will be traveling to a place without timely mail service who requests that they be mailed their ballot prior to their trip, so they can vote before they leave). [Eff] (Auth: HRS §11-4) (Imp: HRS §§11-107, 11-140, 15-5)

§3-177-607 Ballot packages; replacement and absentee requests, form. (a) To the extent a voter requires a ballot package beyond the one initially authorized by HRS §11-102 to be mailed to them, an application may be required.

(b) Election officials may use different applications for different situations and the applications shall be in a form prescribed and approved by the chief election officer or clerk.

(c) The applications may include information to permit the verification of the identity of the applicant, such as applicant's name, date of birth, and one of the following:

- (1) Hawaii State Driver License Number;
- (2) Hawaii State Identification Number; or
- (3) Last Four Digits of the Social Security Number.

(d) Depending on the type of application request, other information relevant to the request may be requested (e.g. mailing address, temporary mailing address, electronic mail address, name of designee picking up a ballot for the voter, evidence of statutory eligibility for the presidential ballot, or affirmation indicating compliance with the criteria for the request).

(e) The clerk may initially accept an oral request for a ballot package in an emergency situation to expedite the transmission of the ballot package but they may still require the voter to complete and return a signed application before accepting the ballot.

(f) Notwithstanding anything to the contrary, in special cases the clerk may waive any of the foregoing requirements related to the submission of an application (e.g. the clerk may determine under the totality of the circumstances that it is sufficient to make a notation of the oral request in the voter's record, issue the ballot package, and review signature on the return identification envelope, when it is returned). The following constitutes a non-exhaustive list of special cases:

- (1) Any voter who has confidential voter

- registration status pursuant to HRS § 11-14.5 or the provisions of chapter 801G, HRS;
- (2) Under any circumstances the clerk determines may unduly interfere with the ability of a voter to vote; or
 - (3) Under any circumstances the clerk determines to constitute an emergency.

SUBCHAPTER 14

RETURN IDENTIFICATION ENVELOPE PROCEDURES

§3-177-650 Return and receipt of return identification envelopes; manner, location, and time of receipt. (a) Return identification envelopes may be returned in person or by mail. To the extent a ballot package was electronically transmitted to a voter, the voter will also have the option of returning the electronic equivalent of the return identification envelope by electronic transmission. In such a situation, the voter will be required to return at a minimum the ballot or ballot summary, depending on the type of electronic ballot system used, the waiver of secrecy under HRS §11-137, and applicable affirmation statement. The waiver may be combined with the affirmation statement.

(b) Any statutory reference to the return of ballots or return identification envelopes by mail shall not be interpreted to preclude those items being delivered in-person by a voter or their agent.

(c) Any statutory reference to the receipt of ballots or return identification envelopes by the "clerk" or "office of the clerk" shall be interpreted consistently to reflect that appropriate receipt shall have occurred if the clerk, their staff, or others delegated authority by the clerk take custody of return identification envelopes from anyone at any location, including the U.S. Postal Service post office, no later than the applicable deadline provided for in statute.

(d) The following constitutes a non-exhaustive list of locations where identification envelopes (i.e. ballots) may be received:

- (1) Voter Service Centers;
- (2) Places of Deposit;
- (3) Any location designated by the clerk for the receipt of return identification envelopes (e.g. the clerk may have locations that cannot support a voter service center, but

could still reasonably accommodate the receipt of return identification envelopes, so long as they are received than the applicable deadline provided for in statute); or

- (4) Any location where the clerk, their staff, or others delegated authority by the clerk take custody of return identification envelopes (e.g. the clerk may make arrangements to pick up return identification envelopes at a U.S. Postal Service post office, so long as they are received by the applicable deadline provided for in statute).

(e) To the extent a voter is standing in line at the applicable deadline provided in statute at a place of deposit or at a voter service center with the intent of returning their return identification envelope, they shall be allowed to vote. Likewise, a person or a mail carrier delivering return identification envelopes on behalf of voters, to the extent they are standing in line at a place of deposit or at a voter service center, with the intent of delivering said return identification envelopes they will be permitted to deliver them and they will be considered to have met the applicable deadline. The term "mail carrier" includes the U.S. Postal Service and any private delivery service.

(f) Once a return identification envelope is received, the voter's ballot shall be deemed cast and may not be recast in the election.

(g) Election officials shall secure the return identification envelopes and deliver them to any location that is established to validate signatures or otherwise process the envelopes or their contents.

[Eff] (Auth: HRS §11-4) (Imp: HRS §§11-102, 11-104, 11-105, 11-107, 11-109, 11-137, 15-4)

§3-177-651 Return identification envelopes;
general preparing of ballots for counting. (a) Upon receipt of the return identification envelope, the

clerk may prepare the ballots for counting. Before opening return identification envelopes and counting the ballots, the return identification envelopes shall be checked for the following:

- (1) Signature on the affirmation statement;
- (2) Whether the signature corresponds with a reference signature image using the provisions of HAR §3-177-652; and
- (3) Whether there is a condition that would not allow the counting of the contents of the return identification envelope (e.g. the voter has already voted, or otherwise returned a return identification envelope that has been validated).

(b) If any requirement listed in subsection (a) is not met or if the return identification envelope appears to be tampered with, the clerk shall mark across the face of the envelope "invalid" and it shall be kept in the custody of the clerk and disposed of as prescribed for ballots in HRS §11-154, unless it is subsequently determined to be valid. To the extent a return identification envelope is deemed invalid, the provisions of HAR §3-177-654 relating to the correction of deficient return identification envelopes may apply.

(c) Notwithstanding anything to the contrary, if a return identification envelope is initially determined to be valid and it is subsequently found that the return identification envelope is empty or otherwise the contents cannot be counted, it may be invalidated (e.g. the return identification envelope typically has a hole that permits one to confirm that there is an enclosed secret ballot envelope, sleeve, or ballot).

(d) The return identification envelope of any voter who was eligible to vote at the time the ballot was cast shall not be deemed invalid solely because the voter became ineligible to vote after casting the ballot (e.g. subsequent death or other basis of ineligibility will not invalidate ballot). For the purposes of this subsection, "cast" means that the voter has:

- (1) Deposited the return identification envelope in the mail;
- (2) Delivered the return identification envelope to the clerk; or
- (3) Completed voting in person at a voter service center.

However, a ballot will not be considered for counting if it was not received by the applicable statutory deadline on the day of the election.

(e) All return identification envelopes complying with subsection (a) shall be deemed valid and secured by election officials for subsequent processing and counting. [Eff] (Auth: HRS §§11-4) (Imp: HRS §§11-106, 11-107, 11-108, 11-154, 15-3.5, 15-9, 15D-10, 15D-10.5)

§3-177-652 Return identification envelopes; signature validation. (a) The clerk will initially compare the signature on a return identification envelope with the reference signature or reference signatures of the voter. The clerk may authorize the use of a signature device, as defined in HAR §3-177-653, to compare signatures. A signature considered matched by a signature device will be considered valid and not require further verification.

(b) A "reference signature" is any signature provided in connection with the administration of elections or any signature provided to election officials from a governmental entity obtained in the ordinary course of business (e.g. voter signatures on any election issued form or application, correspondence with election officials, signature capture cards sent to and returned by voters, signatures from the Department of Transportation or county licensing examiners, or signatures from any governmental entity shared with election officials).

(c) Any signature not initially validated by the signature device or that was not submitted to a signature device will be visually compared by the election official.

- (1) As a return identification envelope was

issued and transmitted to the voter, the return of the return identification envelope or electronic equivalent will be rebuttably presumed to be from the voter and any signature contained therein as that of the voter;

- (2) A voter is permitted to use a variation of their name, to the extent it can be recognized as such by the reviewing election official;
- (3) The election official will review the general appearance of the signatures taking into account the above noted rebuttable presumption, permitted name variations, and the following:
 - (A) type of writing (e.g. cursive versus print);
 - (B) speed of writing (e.g. harmonious versus slow and deliberate);
 - (C) overall spacing;
 - (D) overall size and proportions;
 - (E) position of the signature (e.g. slanted versus straight); and
 - (F) spelling and punctuation.
- (4) The election official will consider whether any apparent differences can be reasonably explained, by the facts and circumstances surrounding the signatures. The election official may consider, but not be limited to, the following considerations:
 - (A) When the signatures were made in comparison to each (e.g. a significant period of time has transpired between signatures);
 - (B) The age of the writer at the time of the signatures;
 - (C) How the signatures were made (e.g. driver license offices may use an electronic signature pad to record signatures, including those used for voter registration, while an envelope may be signed in ink); or

(D) Whether household members signed and returned each other's return identification envelope by accident, in which case, if the signatures match each of the correct voter's signature reference image and the voters have not otherwise voted, such that the counting of the impacted ballots would not result in a voter having voted a ballot not associated with their residence or containing questions or contests they are not eligible to vote on, the impacted return identification envelopes may be considered valid.

(d) A voter may make a mark in place of a signature on the affirmation statement on the return identification envelope so long as there is a witness' signature and address on the affirmation statement. In such a situation, the return identification envelope will be considered valid. If no witness' signature and address appear on the affirmation statement, then the return identification envelope will be deemed invalid. However, if a voter is physically unable to sign or to make a mark, they may use the provisions of HRS §456-19 to have a notary sign on their behalf, and the return identification envelope will be considered valid. [Eff] (Auth: HRS §11-4) (Imp: HRS §§11-15, 11-16, 11-106, 11-107, 11-108, 15-9, 15D-10, 456-19)

§3-177-653 Return identification envelopes; signature device. (a) A "signature device" refers to a device that either captures images or uses imported images which it analyzes and compares to existing signature reference images. A signature device can be incorporated into any automated ballot sorting system or similar system or it may be a stand-alone device.

(b) The clerk may conduct audits relating to the signature device and may discontinue the use of the device at any time, without regard to the results of any auditing. [Eff] (Auth: HRS §11-4) (Imp:

HRS §§11-106, 11-107, 11-108, 15-9, 15D-10)

§3-177-654 Return identification envelopes; notification and correction of deficiencies. (a) Any return identification envelope initially identified as invalid will be considered a deficient return identification envelope for purposes of HRS §11-106, if the voter has not already voted. The clerk shall make an attempt to notify the voter by first class mail, telephone, or electronic mail to inform the voter of the procedure to correct the deficiency. The voter shall have five business days after the date of the election to cure the deficiency. The counting of ballots and disclosure of subsequent election results may continue during the time period permitted to cure a deficiency. The clerk's inability to contact voters shall not be grounds for a contest for cause under HRS §11-172.

(b) A deficient return identification envelope may be corrected and treated as valid in any manner that satisfies the clerk due to one of the following:

- (1) the signatory to the return identification envelope is the voter who was assigned the return identification envelope; or
- (2) the basis of the deficiency has been properly addressed and removed.

(c) The manner of correction may include, but not be limited to the following:

- (1) The returning of a signed form including the voter's name and date of birth, in addition to the voter's Hawaii State Driver License number, Hawaii State Identification Card number, or the last four digits of their Social Security Number, indicating that the voter signed the original return identification envelope or otherwise addressing the deficiency associated with their return identification envelope. The form may be returned in any manner authorized by the clerk, including electronic transmission;

- (2) The use of an online voter registration system or similar state or county system that permits a voter to log in through the submission of their name and date of birth, along with their Hawaii State Driver License number, Hawaii State Identification Card number, and allows the voter to indicate they signed the original return identification envelope or otherwise addressing the deficiency associated with their return identification envelope;
- (3) Any other program or service used by the state or county, including through a third party, that permits a voter to indicate that they signed the original return identification envelope or otherwise addressing the deficiency associated with their return identification envelope; or
- (4) The clerk, at their discretion, repeating the prior signature validation process or aspects of it, in conjunction with any updates to the signature reference images to the statewide voter registration system.

(c) For purposes of this rule, a voter as part of the correcting of a deficiency may not mark a new ballot after the applicable statutory deadline on election day. Instead, only the original deficient return identification envelope may be considered cured and now valid (i.e. a voter after the results of an election are known cannot change who they voted for, as they can only ensure that their original ballot received by the applicable statutory deadline on election day is considered valid).

(d) A voter who has been informed prior to the applicable statutory deadline on election day for voting that their return identification envelope is deficient will not be prevented from requesting a replacement return identification ballot or otherwise voting at a voter service center by the applicable statutory deadline on election day, so long as ultimately only one ballot is counted (e.g. a voter whose signature was found not to match may decide to

simply vote in person at a voter service center and not have their prior return identification envelope counted). Otherwise, such a voter may correct the originally deficient return identification envelope within five business days of the election.

VOTING SYSTEMS

§3-177-700 Voting system requirements. (a) In addition to, and not in lieu of, any other election processes contained in Title 2 of the Hawaii Revised Statutes, the chief election officer, or the clerk in the case of a county only election, may use a voting system or voting systems that comply with one, or a combination of the following:

- (1) The federal voting system standards as printed in the Federal Election Commission publication: Performance and Test Standards for Punchcard, Marksense, and Direct Recording Electronic Voting Systems (1990);
- (2) The federal voting system standards as printed in the Federal Election Commission publication: Voting System Standards, Volumes I & II (April 2002);
- (3) The federal voluntary voting system guidelines as printed in the United States Election Assistance Commission publication: 2005 Voluntary Voting System Guidelines Version 1.0, Volumes I & II (2005), and subsequently published in the Federal Register, Vol. 71, No. 70 (April 12, 2006);
- (4) The Voluntary Voting System Guidelines 1.1 adopted by the United States Election Assistance Commission on March 31, 2015;
- (5) Any subsequent iteration of the Voluntary Voting System Guidelines adopted by the United States Election Assistance Commission, its designee, or as provided for in the Help America Vote Act of 2002, as amended; or
- (6) Any federal guidelines, manuals, forms, policies, or opinions issued by the United States Election Assistance Commission.

(b) To the extent a voting system uses COTS or MOTS and was originally compliant with this rule, the

subsequent use of a more current version of the original COTS or MOTS or the use of another brand of COTS or MOTS will not undermine the original finding of compliance and no subsequent certification or compliance process will be required.

- (1) "COTS" for purposes of these rules is understood to be the following: "Software, firmware, device or component that is used in the United States by many different people or organizations for many different applications other than certified voting systems and that is incorporated into the voting system with no manufacturer- or application-specific modification;"
- (2) Similarly, for purposes of these rules "Modified COTS (or MOTS - Modified Off-the-Shelf) refers to an off-the-shelf product that is customized by a commercial vendor to respond to specific requirements of the election community;" and
- (3) These definitions are from the United States Election Assistance Commission, *Considerations for Implementing Voting Systems with COTS Products*, Posted March 21, 2017 at <https://www.eac.gov/documents/2017/03/21/considerations-for-implementing-voting-systems-with-cots-products/>.

§3-177-701 Approval of all voting equipment, materials, and procedures. The chief election officer or designated representative shall approve all necessary forms, supplies, and procedures used in the operation of any voting system. [Eff] (Auth: HRS §11-4) (Imp: HRS §§11-4, 16-1, 16-2)

§3-177-703 Elections services; provision and charges. The chief election officer may provide election related services and equipment to government and private non-profit organizations to assist with the conduct of elections or surveys subject to the following conditions:

- (1) A request is made on a form provided by the chief election officer;
- (2) The provision of such election services or equipment does not interfere with the preparation for, or conducting of any primary, special primary, general, special general election, or special election;
- (3) The services or equipment are not used in connection with any activity or message intended to influence the outcome of any contest or question in any primary, special primary, general, special general election, or special election;
- (4) The requesting party directly assumes all costs associated with the conduct of the election or survey other than those associated with the personnel and equipment of the chief election officer; and
- (5) The requesting party agrees to reimburse the chief election officer for an amount not to exceed the actual costs associated with the personnel and equipment used, provided that this requirement may be waived in writing by the chief election officer for government offices or agencies. [Eff] (Auth: HRS §11-4) (Imp: HRS §16-3)

§3-177-704 Testing the vote counting system; electronic voting systems. (a) Prior to election day, the vote counting system prepared for counting and tabulating the votes shall be tested in the presence of the following persons:

- (1) The chief election officer, clerk, or designated representative;
- (2) Official observers; and
- (3) Other authorized interested persons, as space permits.

(b) The test may include a predetermined number of votes for each candidate and for and against each question and a predetermined number of excess or "over" votes and blank votes for each candidate or question.

- (1) Each official observer and other authorized persons may prepare test ballots for the test of the vote counting system;
- (2) The vote counting system shall not be approved unless it produces the exact count of all votes, rejects all improper votes, and meets all other test criteria;
- (3) After the test has been satisfactorily conducted, all test ballots, test results, and the vote counting system shall be secured and shall not be subsequently open except in the presence of not less than two official observers who are of different political party or organizational affiliations. Notwithstanding this, voting equipment that has been initially secured under this rule for subsequent delivery to another location, such as a voter service center, counting center, or similar location, may be opened by the election officials present at that subsequent location;
- (4) Official observers shall sign a certification that the vote counting system was tested, found accurate, and approved.

(c) In the event of a vote counting system malfunction, the test shall be rerun upon completion of the maintenance or corrective work. There shall be

no further processing until the test indicates that the vote counting system is working properly.
[Eff] (Auth: HRS §11-4) (Imp: HRS §§16-42, 16-43, 16-45)

§3-177-705 Experimental voting systems; rules and procedures. In an election where the chief election officer experiments with voting systems of a different kind, all rules which can be reasonably applied to that system shall be followed. Temporary procedures shall be used as required for the experimental voting systems only. Nothing herein is to be used to diminish, take away or otherwise impair the rights of the voter. [Eff] (Auth: HRS §11-4) (Imp: HRS §16-1)

§3-177-706 Electronic voting systems; generally. An "electronic voting system" means any method of recording, counting, and tabulating votes via automatic tabulating equipment. For purposes of these rules, an electronic voting system includes, but is not limited to, the "marksense ballot voting system" and the "direct recording electronic voting system." To the extent an electronic voting system is not a "marksense ballot voting system" or a "direct recording electronic voting system," all rules associated with those systems which can be reasonably applied to the new system shall be followed. Temporary procedures shall be used as required if the rules associated with the "marksense ballot voting system" or a "direct recording electronic voting system" cannot be reasonably applied to the new system and followed. Nothing herein is to be used to diminish, take away or otherwise impair the rights of the voter. [Eff] (Auth: HRS §11-4) (Imp: HRS §§16-1, 16-41, 16-42)

§3-177-707 Electronic voting systems; marksense voting system. A "marksense voting system" means an

automatic tabulation system using ballots and optical scanning or similar technology equipment. The voter manually records votes by marking the appropriate voting position on the ballot, with a prescribed marking device, in the manner instructed by the chief election officer. The marks on the ballots are subsequently read by the optical scan or similar technology device, in conformance with the specifications of the voting system selected by the chief election officer. As used in these rules, a "marksense voting system" is considered to be a "mechanical tabulation system," which may be used in any context requiring or permitting the use of a mechanical tabulation system. A "mechanical tabulation system" means an automatic tabulation system, including a marksense ballot voting system. (Auth: HRS §11-4) (Imp: HRS §§16-1, 16-41, 16-42)

§§3-177-708 to 3-177-749 (Reserved)

SUBCHAPTER 16

VOTE DISPOSITION

§3-177-750 Electronic voting systems; documentation of overages and underages; records. The voted ballots shall be kept secure and handled only in the presence of representatives not of the same political party or official observers. If there are more ballots than documented usage indicates, this shall be an overage and if fewer ballots, it shall be an underage. Any overages or underages in any district shall be documented. The list of any such overages or underages shall be filed and kept as a public record in the office of the chief election officer or the clerk in county elections. After all ballots have been tabulated, they shall be sealed in containers. [Eff] (Auth: HRS §§11-4, 11-154) (Imp: HRS §§11-153, 11-154, 11-155)

§3-177-751 Electronic voting systems; centralized and decentralized counting. (a) Centralized counting involves the receipt of ballots which are counted at a counting center designated by the chief election officer.

(b) Decentralized counting involves ballots which are counted at the voter service center by the voting device or voting devices associated with the voter service center, including marksense voting devices, direct recording electronic voting devices, or similar technology.

(c) A "counting center" means the facilities and surrounding premises designated by the chief election officer or the clerk where ballots or other electronic voting system votes are processed, counted, and tabulated.

(d) The chief election officer may use centralized counting, decentralized counting, or a combination thereof. [Eff] (Auth: HRS §§11-4) (Imp: HRS §§16-2, 16-41 through 16-47)

§3-177-752 Electronic voting systems; marksense voting system; disposition of marks. (a) As noted in HAR §3-177-454, the voter shall properly mark the ballot in the manner and color of ink, softness of pencil graphite, or other manner as described by the instructions prescribed by the chief election officer.

(b) A mark made in the manner indicated in subsection (a) shall be considered a "proper mark" and counted by a properly functioning voting system as a vote.

(c) A mark made outside of the voting position will be considered an "improper mark" and will not be counted by a properly functioning voting system as a vote.

(d) A "marginal mark" involves a mark in the voting position area in which the voter may have used an improper marking device or did not completely fill in the voting position area as instructed. As indicated by its name, such marks are marginal. The disposition of a marginal mark as to whether it will be counted as a vote will be based on whether a properly functioning voting system has read the mark as a vote. A marginal mark will be read by the voting system as a vote under two circumstances:

- (1) The vote counting system has been tested pursuant to HAR §3-177-704 and it has determined that the mark has met the threshold of the system for a vote; or
- (2) The voting system in using an algorithm or similar process to eliminate false overvotes caused by pen rests, dirt, or other small marks on the ballot, determines that the mark is in fact a vote.

(A) The use of such an algorithm will be determined by the chief election officer prior to the election and the official observers will be able to test the vote counting system to ensure it is working properly; and

(B) The chief election officer may

authorize such an algorithm to be used in conjunction with the processing of ballots at the counting center or at a voter service center. However, the chief election officer may elect to only authorize it in certain settings. For example, situations in which the voter does not have the benefit of an in-person voting system to inform them of a possible voting error on the ballot that they could address before the ballot is cast. §3-177-753 Electronic voting systems, transmission, receipt, and tabulation of votes. (a) The transmission or receipt of vote data, including but not limited to votes, vote tabulation, or similar information, shall be permitted between locations authorized by the chief election officer or clerk in the case of county elections. Election results, accumulated from said transmissions, may be distributed to the general public while awaiting receipt of the ballots, vote data storage media, or other materials associated with the transmissions and the completion of any procedures intended to verify the proper transmission and accumulation of data.

(b) "Vote data storage media" is the means of storing vote data such as a PCMCIA card or other device that may be secured in the voting equipment or any part of the overall voting system.

(c) The following requirements shall be employed when transmitting election data electronically:

- (1) The voting system shall be self-contained and not connected to any network infrastructure that is not under the direct control of the office of elections or the clerk in the case of county elections;

- (2) The transmission and accumulation of election results shall be subject to a testing and verification prior to the election;
 - (3) The electronic transmission of official election vote data shall occur via virtual private network or other secured network. Where possible and to the extent that the voting system design permits, data transfers between system components should incorporate the use of digital signatures or encryption to authenticate the data for the particular election.
 - (4) Accumulated election results shall be considered uncertified unless it can be independently verified prior to transmission and following receipt and until certified by the chief election officer. Independent verification may be accomplished via manual inspection of election results prior to and following electronic transmission or by employing the use of a cryptographic hashing algorithm on randomly selected data files prior to and after transmission.
- (c) Any election results transmitted by modem shall be considered "uncertified" unless transmitted via a virtual private network or until compiled directly from the source media.
- (d) In elections where voting results are tabulated at multiple locations and accumulated at a central location, election results tabulated and produced at the distributed counting center locations shall be considered the source of election results for verification purposes. §3-177-754 Electronic voting systems; marksense ballot voting system results. Uncertified results from a marksense ballot voting system may be distributed to the general public, while awaiting the completion of

any audit under HAR §3-177-762, and any other procedures required by law. [Eff] (Auth: HRS §§11-4) (Imp: HRS §§11-108, 16-2, 16-41 through 16-47)

§3-177-755 Electronic voting systems; direct recording electronic voting system results. The chief election officer, clerk, or designees may distribute electronic tallies created directly from a direct recording electronic voting device, while the requirements of HRS §16-42(b) are being met. In the event the chief election officer, clerk, or designee determines that the electronic tallies from a direct recording electronic voting device are not reliable, the chief election officer, clerk, or designee shall promptly notify the official observers and count the voter verifiable paper audit trails by hand or a mechanical tabulation system. [Eff] (Auth: HRS §§11-4) (Imp: HRS §§11-108, 16-2, 16-41 through 16-47)

§3-177-756 Electronic voting systems; inspection, audit, and experimental testing. Prior to election day, the chief election officer, county clerk, or designees shall test the electronic voting system. If, as a result of the initial testing, the chief election officer determines additional inspection, auditing or testing is required, the chief election officer shall notify the official observers so that they can witness the additional inspection, auditing or retesting needed to ensure that the voting system is working properly. If, after election day, the post-election, pre-certification audit indicates misreporting within the system, the chief election officer shall notify the official observers so that they can witness the additional inspection, auditing or retesting performed to ascertain the nature of the problem. §3-177-757 Electronic voting system; counting center procedures. (a) The handling of ballots, vote data storage media, and voter verifiable paper audit trails shall occur only in the presence of representatives who are not of the same political party or official observers, except in cases where technical knowledge and skill is required when authorized by the chief election officer, clerk, or designated representative.

(b) The official observers shall observe the processes within the counting center and shall report any changes or deviations from the rules or procedures to the chief election officer, clerk in county elections, or designated representative. The observers shall also participate in all certifications that may be required by the chief election officer, clerk, or designated representative.

(c) No person shall be permitted into the counting center without the authorization of the chief election officer, clerk in county elections, or designated representative.

(d) There shall be no printout by the computer or other disclosure of the number of votes cast for a candidate or on a ballot question prior to the closing of the polls as specified in HRS §11-131.

(e) If a system becomes inoperative, the chief election officer, clerk, or designated representatives shall evaluate and determine the extent of the malfunction. Provisions for backup procedures shall be available and may be put into effect. All tests and operational procedures stated in these rules shall apply to any standby equipment used.

(f) After all ballots are counted, the election database and vote data storage media, test ballots and results, the election results, and the voted ballots shall be sealed in containers or cabinets.

(g) Subsequent audits may be conducted by the chief election officer, clerk, or designated representative in accordance with established procedures.

(h) A written record shall be maintained of each

opening and sealing of these storage containers or cabinets. The record shall include all of the following:

- (1) Date and time;
- (2) Name of each person requesting opening and reasons for opening;
- (3) Seal numbers; and

§3-177-759 Electronic voting system counting; duplication procedure. (a) Counting center officials shall record and reconcile the number of defective ballots before and after the ballot is duplicated.

(b) Counting center officials, in the presence of representatives who are not of the same political party or official observers, shall prepare a duplicate ballot to replace each defective ballot. To the extent a defective ballot is the result of the wrong ballot type having been used for a particular

district, counting center officials shall ensure that all votes cast in contests for which the voters in that district are entitled to vote are properly duplicated onto the duplicate ballot associated with the correct ballot type for counting. All of the votes in contests for which the voters in that district are not entitled to vote will not be counted and as such will not be duplicated onto a duplicate ballot. Unvoted ballots for duplication and voting devices shall be authorized in the counting center for this purpose.

(c) Counting center officials shall prepare a reconciliation of the number of duplicated ballots used to replace the defective ballots. The defective ballots shall be invalid and stored in accordance with subsection (f).

(d) Duplicated ballots shall be returned to the appropriate originating counting center officials for final verification.

(e) All valid ballots shall be read and counted by the vote counting system. If, during the scanning of the ballots additional defective ballots are rejected, the defective ballots shall be processed in accordance with subsections (a) through (d).

(f) After the duplicated ballots are counted, the counted ballots and the invalid ballots shall be logged and sealed. The ballots shall be stored in containers or cabinets which shall be sealed. §3-177-762 Electronic voting system; auditing.

(a) The chief election officer or the clerk shall conduct an audit of a random sample of not less than ten per cent of the precincts employing the electronic voting system, to verify that the electronic tallies generated by the system in those precincts equal hand tallies of the paper ballots generated by the system in those precincts.

- (1) The manual audit may be conducted by election officials or by counting center

officials;

- (2) Except for designated election officials, counting center officials, or official observers, no person shall be permitted to witness the audit without the authorization of the chief election officer, clerk, or designated representative. The area in which the audit is conducted shall be kept secure;
- (3) Observers may request to conduct a manual audit;
- (4) Whenever ballots are removed from storage, the handling of the ballots shall be witnessed by not less than two representatives who are not of the same political party or official observers;
- (5) Election officials and counting center officials shall certify the conduct of and results of the manual audit; and
- (6) The manual audit shall not be considered a recount pursuant to the election contest provisions of the law.

(b) In the event discrepancies are found in the audit, the chief election officer may authorize an expanded audit to determine the extent of misreporting within the system.

- (1) The chief election officer may use official observers, election day officials, county or state election employees, or other designated individuals as part of the expanded audit.
- (2) The chief election officer will determine when the expanded audit is concluded.
- (3) The results of the expanded audit will be filed with the office of elections.

(c) In lieu of relying on the initial results from an electronic voting system, the chief election officer may count ballots or voter verifiable paper audit trails by hand or with a mechanical tabulation system, or a combination thereof.

- (1) Any counting of ballots or voter verifiable paper audit trails, through the use of a

mechanical tabulation system, will conform to the marking and vote disposition rules relating to the voting system that the ballot or voter verifiable paper audit trails were associated with.

- (A) As the marksense ballot voting system, is a mechanical tabulation system, and the ballots were intended to be read by the devices associated with that system, the chief election officer, will to the extent possible, use those voting devices of the system that did not experience misreporting problems; and
 - (B) In the event there are inadequate voting equipment that did not experience misreporting problems, the chief election officer, in consultation with the official observers, may use voting equipment that have been repaired to the satisfaction of the chief election officer.
- (2) Any counting by hand of ballots or voter verifiable paper audit trails will conform to the marking and vote disposition rules relating to the voting system that the ballot or voter verifiable paper audit trails were associated with.
- (A) Ballots that were marked for use by a marksense ballot voting system, will be counted in accordance with those rules associated with that system to the extent reasonably possible. Any hand count of marksense ballots will not use any statute or rules associated with the paper ballot voting system, as those marking instructions and vote disposition rules are uniquely different from those statutes and rules associated with other voting systems; and
 - (B) Voter verifiable paper audit trails

from a direct recording electronic device voting system will be counted in accordance with the ballot selections indicated on them.

(d) The chief election will, to the extent possible, resolve any misreporting problem, prior to the end of the contest period stated in HRS §11-173.5, in the case of a primary, or special primary election, or HRS §11-174.5, in the case of a general, special general, or special election. Any resolution of a misreporting problem shall be documented and filed with the office of elections.

(e) "Precinct" for purposes of this rule, consistent with HAR §3-177-57, refers to the ballot type that corresponds to the manner in which results are reported (i.e. if results are reported by state representative district-precinct, such as DP 17-01, then the ballot type associated with DP 17-01 is the applicable precinct for auditing purposes).
[Eff] (Auth: HRS §11-4, 52 USC §21081) (Imp: HRS §§11-4, 11-108, 11-153, 16-2, 16-41, 16-42, 52 USC §21081)

§3-177-763 Electronic voting system; recount.

(a) No person shall be permitted in the counting center without the written authorization of the chief election officer or clerk for purposes of the recount.

(b) The "counting center" means the facilities and surrounding premises designated by the chief election officer or the clerk in county elections where electronic voting system ballots are processed, counted, and tabulated.

(c) The office of elections or the clerk in the case of county elections shall notify candidates affected by a recount, of the date and time the recount will begin. The candidate or their designated representative may attend and witness the recount. The candidate or their representative will be provided with identification, which they must wear when present in the counting center for the recount.

(d) An attempt will be made to contact

candidates affected by the recount to inform them of the time and place of the recount. Contact may be attempted through using the telephone number or electronic mail address provided to election officials as part of the candidate's application for their nomination paper. Election officials are not responsible for the non-receipt of such notice by the candidate.

(e) Given the need to conclude any recount within seventy-two hours of the closing of polls on election day, any notice may be provided on Saturdays, Sundays, or holidays. Such a notice will not serve to extend the initiation or conclusion of the recount.

(f) As the ballot typically contain various contest beyond the contest that triggered the recount, the system may read all marks on the ballot, when the ballots are scanned. This may result in the system generating not only new results for the contest in question but also other contests on the impacted ballots. However, any results for those other contests will not be considered official and will not change the previous official results in those contests.

(g) Any counting of ballots or voter verifiable paper audit trails will conform to the marking and vote disposition rules relating to the voting system that the ballot or voter verifiable paper audit trails were associated with. As the marksense ballot voting system, is a mechanical tabulation system, and the ballots were intended to be read by the devices associated with that system, the election officials, will to the extent possible, use voting devices associated with the system.

(h) The results of the recount will be subject to auditing under HAR §3-177-762.

(i) After the conclusion of any audit of the recount, the results of the recount for the contest that triggered the recount will be publicly announced.

(j) The recount will include only those ballots that were a part of the initial tabulation, which HRS §11-108(b) required to be completed no later than 6:00 a.m. on the day following an election day.

(k) Ballots whose validity had not been initially determined and as such were not included in the initial tabulation, will be counted separately after being validated. This includes, but is not limited to, any ballots that were initially deficient but were subsequently corrected by voters, pursuant to HRS §11-106. The counting of these ballots will result in updated election results. However, the updated election results may not serve as a basis for the triggering of another recount. As these ballots are not a part of the initial tabulation subject to recount, the provisions related to a recount shall not apply to the counting of them. However, the date and time of the counting of these ballots will be provided to the official observers, pursuant to HRS §16-45. [Eff] (Auth: HRS §11-4, 52 USC §21081) (Imp: HRS §§11-108, 11-158, 16-2, 16-41 through 16-45, 52 USC §21081)

§3-177-764 Challenged voter's ballot; disposition of at counting center. (a) As it relates to a challenged voter's ballot, it will only be counted if the clerk informs the counting center manager that the resolution of the challenge is for the challenged voter's ballot to be counted. The resolution of the challenge may occur through the expiration of the deadline to appeal a decision of the board of registration saying the ballot should be counted, the waiving of any right of appeal prior to the deadline, or a ruling by the intermediate court of appeals to count the ballot.

(b) If the challenged voter's ballot is to be counted, counting center officials shall prepare the ballot for processing. The ballot shall be counted using procedures established by the chief election officer. In all cases, the secrecy of the ballot must be preserved. If the secrecy of the ballot cannot be preserved, the challenged ballot shall not be processed except to break a tie vote, as ordered by the appellate court. It shall be disposed of as provided by law. [Eff] (Auth: HRS §11-4)

location in secured containers in accordance with

procedures established by the chief election officer.

(b) Opening and processing of valid return envelopes for tabulation may begin no sooner than the tenth day before the election. In the presence of official observers, counting center officials may open the return identification envelopes and count the ballots; provided that any tabulation of the number of votes cast for a candidate or question appearing on the ballot, including a counting center printout or other disclosure, shall be kept confidential and shall not be disclosed to the public until after 7:00 p.m. on the date of the election or after the last person in line at a voter service center desiring to vote at 7:00 p.m. on the date of the election has voted, as provided in HRS §11-131, whichever is later.

SUBCHAPTER 17
PAPER BALLOT VOTING SYSTEM

§3-177-800 Paper ballot voting system; voting procedure at the voter service center. (a) The "paper ballot voting system" means the method of recording votes which are counted manually in accordance with HRS §§16-21 to 16-29. Neither the paper ballot voting system or paper ballot voting system procedures apply to ballots that were originally meant for any other voting system, such as the marksense voting system (e.g. marksense ballots cannot be marked or counted under the rules associated with this subchapter).

(b) If a paper ballot voting system is to be used, a demonstration of the proper method to use in marking a paper ballot, shall be available to all voters at the voter service center. A card of instruction detailing the method of marking ballots and voting shall be posted outside the voter service center and in each voting booth.

(c) The voter may be asked to verify their identity.

(d) The voter may be required to fill out an application that will be used in conjunction with the statewide voter registration system. In the alternative, they may sign a poll book, depending on how the voter service center is operated. In either case, the poll book or application shall include the ability for the voter to make a mark in the appropriate place if the voter is unable to write for reasons of illiteracy, blindness, or other physical disability. The voter service center official shall print "witnessed by" next to the voter's mark and sign the voter service center official's name.

(e) Before issuing a ballot to a voter, the voter service center official shall fold the ballot in the manner prescribed by the chief election officer or clerk so as to conceal the contents.

(f) Upon receiving the folded ballot, the voter shall proceed into the voting booth and shall mark the

ballot in the manner and color of ink or grade of softness of pencil graphite prescribed by the chief election officer as described in the card of instruction. Within the voting booth the voter shall designate each choice by marking an "X", "+", or "%" in the voting position area next to the name of the candidate for whom the voter desires to vote or the question on the ballot for which the voter desires to vote. The voting position area will be designated by the chief election officer on the ballot. The voting position area may include, but not be limited to circles, squares, rectangles, or other shapes. In addition, the chief election officer will determine whether the voting position area is on the right or left hand side of a candidate's name or the ballot question.

(1) Examples of proper marks are:

(2) Examples of improper marks are:

(g) The voter shall then refold the ballot using the same folds as when handed to the voter by the voter service center official and shall give the folded ballot to the voter service center official at the ballot box. The official shall not open or unfold the ballot, but shall ensure that the correct number of ballots are deposited in the ballot box.

(h) The voter service center official at the ballot box shall give the voter a receipt.

(i) Voter assistance shall be provided at the voter service center. [Eff] (Auth: HRS §§11-4, 16-22) (Imp: HRS §§11-109, 11-139, 12-31, 16-22, 16-23)

§3-177-801 Paper ballot voting system; counting ballots. (a) All counting shall be conducted by the election officials in accordance with HRS §16-25.

(b) Insofar as the limits of the room in which the voting takes place reasonably allow, no person shall be prevented from attending the counting of the ballots on election day, unless it is necessary to restrict access to preserve the peace.

(c) All tallying shall be done on the official tally sheet, and no one but an election official shall be permitted to assist in calling, tallying, or performing any other work involved in counting the votes cast. The election officials shall also tally the number of:

- (1) Questionable ballots, as defined in HRS §16-26, which shall be placed in an envelope provided for that purpose; and
- (2) Totally blank ballots.

(d) When tallying is completed, an election official, in the presence of at least one other election official not of the same political party, shall circle the last block containing the last tally mark with a red pen.

- (1) Immediately to the right of the circled block, an election official shall record the total number of tally marks including those in that block, and the election official and the other election officials shall affix their initials.
- (2) The total count shown on the tally sheet shall be recorded on the results of votes cast form.
- (3) The election officials shall then complete and sign the certification on the tally sheet and the results of votes cast form.
- (e) When the election officials have ascertained

the number of votes given for each candidate and ballot question, they shall make public declaration of the whole number of votes cast, the names of the persons voted for, the ballot questions, and the number of votes for each person and ballot question."
[Eff] (Auth: HRS §11-4) (Imp: HRS §§11-152, 11-153, 11-154, 16-24 through 16-29)

3. The adoption of chapter 3-177, Hawaii Administrative Rules, shall take effect ten days after filing with the Office of the Lieutenant Governor.

I certify that the foregoing are copies of the rules drafted in Ramseyer format, pursuant to the requirements of section 91-4.1, Hawaii Revised Statutes, which were adopted on _____, 20____, and filed with the Office of Lieutenant Governor.

BALLOT PRINTING AND DELIVERY

§3-172-70 Candidate vacancies; filling of by party .

(a) In case of death, withdrawal, or disqualification of any party candidate after filing, the vacancy so caused may be filled by the party. If the party chooses to fill the vacancy, the party chairperson or the chair's designated representative, shall submit a written notice to the chief election officer, or clerk in the case of a county office, not later than 4:30 p.m. on the third day after the vacancy occurs, but not later than 4:30 p.m. on the fiftieth day prior to a primary or special primary or not later than 4:30 p.m. on the fortieth day prior to a special, general, or special general election.

(b) The written notice from the party chairperson, or chair's designated representative, shall contain:

- (1) The name of the party;
- (2) The office to be filled;
- (3) A statement that the party nominates the candidate named to fill the vacancy;
- (4) The name, address, and telephone number(s) of the candidate being nominated;
- (5) The candidate's name as it should appear on the ballot;
- (6) An acknowledgment that the candidate accepts the nomination; and
- (7) The signature and title of the person submitting the notice.

(c) Any candidate nominated by a party to fill a candidate vacancy shall not be required to file nomination papers or to pay a filing fee.

(d) If the third day after the vacancy occurs is a Saturday, Sunday, or holiday, then the chief election officer, or clerk in the case of a county office, shall open the office to receive the written notices to fill the vacancy from the parties. The chief election officer shall notify the party chairperson that the office will be open to receive the notice. No extension of time will be allowed.

(e) If the party fails to fill the vacancy within the

time specified in HRS §11-118, then no candidate's name shall be printed on the ballot for the party for that race. [Eff 01/09/10; comp **AUG 13 2017**] (Auth: HRS §11-4) (Imp: HRS §§11-117, 11-118)

§3-172-71 Official ballots. The design and arrangement of the ballot shall meet the requirements of the voting system. The maximum number of candidates or ballot questions for which the voter is legally entitled to vote in any given case shall be clearly indicated. [Eff 01/09/10; comp **AUG 13 2017**] (Auth: HRS §11-4) (Imp: HRS §§11-112, 11-119)

§3-172-71.1 Ballot order; ballots for polling place.

(a) In order to provide a sufficient number of ballots based on the number of registered voters and the expected spoilage in an election, the chief election officer or designee shall order the equivalent of 110% of the voter registration count of a voting precinct. The voter registration count of a voting precinct for purposes of this rule, shall be the voter registration count existing at the close of registration under section 11-24, Hawaii Revised Statutes. For example, if the voter registration count is 2,000, the minimum order would be 2,200 ballots.

(b) The chief election officer shall divide these ballots between the election day polling places and the county clerk for absentee voting, based on the election day polling place and absentee turnout for the precinct for the last regularly scheduled election of the same type. The last regularly scheduled election of the same type refers to the last primary election or the last general election. For example, if the polling place turnout for the last regularly scheduled general election was 20% of all registered voters in the precinct and the absentee turnout was 30% of all registered voters in the precinct, the ballot order for the upcoming general election would be divided with 40% of the ballots to be delivered to, and used in, the polling place in the precinct and 60% of the ballots ordered to be used for absentee voting (i.e. a ballot order of 2,200 ballots for a voting precinct would consist of 880 polling place ballots and 1,320 absentee

ballots). To the extent a prior regularly scheduled election of the same type occurred prior to a recent reapportionment, the chief election officer will approximate what the comparable voting precinct's polling place and absentee turnout was.

(c) The chief election officer may deviate from the above division of ballots, if there is evidence to support the conclusion that the division of ballots will not be substantially similar for an upcoming election. For example, if the percentage of absentee ballot applications for a voting precinct for the upcoming election increases significantly over comparable elections in the past.

(d) In regard to the ballots that a polling place is to receive, the chief election officer may provide for a portion of those ballots to be held in reserve at another location on election day, so long as those ballots can be delivered to the polling place in a timely manner. Ballots may be held in reserve in order to address concerns that having all of the ballots at the polling place may put the election at risk (e.g. a fire, natural disaster, or other incident at the polling place could compromise the ballots that are there and necessitate the deployment of reserve ballots).

(e) Beginning on the ninetieth day prior to an election, the county clerk shall monitor on a daily basis the absentee voting activity for a precinct and inform the chief election officer daily of how many absentee ballots have been requested, issued, and returned for each precinct. The chief election officer may designate any excess absentee ballots to serve as reserve ballots.

(f) The chief election officer may order additional ballots, above and beyond the previously mentioned 110% of the voter registration count, for testing, demonstration, reserve, or similar election purposes. The provisions of subsections (b) through (d) regarding the percentage of ballots that should be assigned for polling place or absentee voting purposes shall not apply to these additional ballots. Said additional ballots may be assigned or used as the chief election officer deems appropriate. [Eff and comp AUG 13 2017] (Auth: HRS §§11-4, 11-119) (Imp: HRS §11-119)

§3-172-72 Ballots; delivery; seal certification procedure; delivery and collection team . (a) Ballots shall be delivered to and from the polling places by a delivery and collection (DC) team or by two election officials designated by the chief election officer or clerk. Each DC team shall be comprised of two election officials not of the same political affiliation.

(b) Whenever the custody of ballots is transferred, the election officials delivering and receiving the ballots shall conduct the following seal certification procedure:

- (1) Ensure that the ballot transport containers and ballot boxes are properly closed and sealed;
- (2) Compare the seal numbers on the ballot transport containers and ballot boxes with the seal numbers recorded on the ballot seal control form or other appropriate form as prescribed by the chief election officer;

§3-172-73 Ballots; transportation and receipt at polling places . (a) Ballots shall be transported to the polling places on election day by the DC Team in sealed ballot transport containers in accordance with the procedure and schedule established by the chief election officer, clerk, or designated representative; provided that when emergency or reserve ballots are required, ballots may be transported to the polling place by two designated

representatives of the chief election officer or clerk.

(b) A precinct official shall be at the polling place at least one hour before the time set for opening the polls, or according to such other schedule prepared by the chief election officer, clerk, or designated representative, to receive the ballots which shall be delivered by the DC Team.

(c) Ballots transported to the precinct by the DC Team may be left at the polling place provided that at least one precinct official is present to receive and sign for the sealed ballot transport containers.

(d) Upon receipt of the sealed ballot transport containers, the receiving officials shall conduct the seal certification process defined in section 3-172-72.

(e) The ballot transport containers shall be unsealed and opened at the polling place prior to the opening of the polls on election day and only in the presence of two precinct officials not of the same political party.

(f) The precinct officials shall compare the ballot serial numbers with the ballot seal control form to determine the quantity of ballots. Discrepancies shall be reported immediately to the chief election officer, clerk, or designated representative and shall be recorded on the ballot seal control form.

(g) In a precinct which cannot be reached by road within one hour from the clerk's office in each county, as may be determined by the chief election officer, clerk, or designated representative, the ballots may be delivered by representatives of the chief election officer or clerk, to the chairperson of the precinct officials or designated election officials prior to election day; provided that the ballot transport containers shall remain sealed and shall be unsealed only at the polling place prior to the opening of the polls and in the presence of at least two precinct officials not of the same political party. Discrepancies shall be recorded on the ballot transport container shipping form and reported immediately to the ballot delivery contractors and the chief election officer or designated representative.

(c) The clerk or designated representative shall compare the ballot serial numbers with the ballot transport container shipping form to determine the quantity of ballots. Discrepancies shall be recorded on the ballot transport container shipping form and reported immediately to the chief election officer or designated representative.

Additionally, this includes the use of direct recording electronic voting devices.

(c) A "counting center" means the facilities and surrounding premises designated by the chief election officer or the clerk where ballots or other electronic voting system votes are processed, counted, and tabulated.

(d) The chief election officer may utilize centralized counting, decentralized counting, or a combination thereof. [Eff 01/09/10; comp **AUG 13 2017**] (Auth: HRS §§11-4) (Imp: HRS §§16-2, 16-41 through 16-47)

§3-172-93 Electronic voting systems, transmission, receipt, and tabulation of votes. (a) The transmission or receipt of data, including but not limited to votes, vote tabulation, or similar information, shall be permitted between locations authorized by the chief election officer or county clerk in the case of county elections. Election results accumulated from said transmissions may be distributed to the general public while awaiting receipt of the ballots, memory cards, or other materials associated

with the transmissions and the completion of any procedures intended to verify the proper transmission and accumulation of data.

(b) General requirements. The following requirements shall be employed for voting systems and when transmitting election data electronically:

(1) The voting system shall be self-contained and not connected to any network infrastructure that is not under the direct control of the Office of Elections or the County Clerk in the case of county elections;

(2) The transmission and accumulation of election results data shall be subject to a blind test and verification prior to the election;

(3) The electronic transmission of official election data shall occur via virtual private network or other secured network. Where possible and to the extent that the voting system's design permits, data transfers between system components should incorporate the use of digital signatures or encryption to authenticate the data for the particular election.

(4) Accumulated election results shall be considered uncertified unless it can be independently verified prior to transmission and following receipt and until certified by the chief election officer. Independent verification may be accomplished via manual inspection of election results prior to and following electronic transmission or by employing the use of a cryptographic hashing algorithm on randomly selected data files prior to and after transmission.

(c) Use of modems. Any election results transmitted by modem shall be considered "uncertified" unless transmitted via a virtual private network or until compiled directly from the source media.

(d) Distributed tabulation. In elections where voting results are tabulated at multiple locations and accumulated at a central location, election results tabulated and produced at the distributed counting center locations shall be considered the source election results for verification purposes. If, as a result of the initial testing, the chief election officer determines additional inspection, auditing or testing is required, the chief election officer shall notify the official observers so that they can witness the additional inspection, auditing or resting needed to ensure that the voting system is working properly. If, after election day, the post-election, pre-certification audit indicates misreporting within the system, the chief election officer shall notify the official observers so that they can witness the additional inspection, auditing or resting performed to ascertain the nature of the problem. §3-172-97 Electronic voting system; counting center procedures. (a) The handling of ballots, memory cards, and voter verifiable paper audit trails shall be observed at the counting center by at least two official observers not of the same political party or organizational affiliation, except in cases where technical knowledge and skill is required when authorized by the chief election officer, clerk, or designated representative.

(b) The official observers shall observe the processes within the counting center, and shall report any changes or deviations from the rules or procedures to the chief election officer, clerk, or designated representative. The observers shall also participate in all certifications that may be required by the chief election officer, clerk, or designated representative.

(c) No person shall be permitted into the counting center without the authorization of the chief election officer, clerk, or designated representative.

(d) There shall be no printout by the computer or other disclosure of the number of votes cast for a candidate or on a ballot question prior to the closing of the polls as specified in HRS §11-131.

(b) The duplication team, in the presence of at least two official observers not of the same political party or organizational affiliation, shall prepare a duplicate ballot to replace each defective ballot. To the extent a defective ballot is the result of the wrong ballot type having been used for a particular precinct, the duplication team shall ensure that all votes cast in races for which the voters in that precinct are entitled to vote are properly duplicated onto the duplicate ballot associated with the correct ballot type for counting. All of the votes indicated in races for which the voters in that precinct are not entitled to vote will not be counted and as such will not be duplicated onto a duplicate ballot. Unvoted ballots for duplication and voting devices shall be authorized in the counting center for this purpose.

§3-172-102 Auditing. (a) The chief election officer or the clerk shall conduct a manual audit on election day during the ballot tabulating to verify the results of the election. A manual audit may also be conducted after

election day.

- (1) The manual audit shall be conducted by the manual audit team which shall contain at least four members, provided that no team shall have members of only one political party. There may be more than one team per counting center.
 - (2) The manual audit team may follow the following guidelines of precincts to audit: at least ten percent of the total precincts; at least one large precinct and at least one small precinct; and at least one precinct with a statewide, a countywide, or a districtwide contest. Reasonable permutations of these requirements shall be allowed for counties with fewer than 30 precincts.
 - (3) The manual audit team shall select the voting precincts to audit.
 - (4) Except for the members of the manual audit team, no person shall be permitted to witness the audit without the authorization of the chief election officer, clerk, or designated representative. The area in which the audit is conducted shall be kept secure.
 - (5) Observers may request to conduct a manual audit.
 - (6) Whenever ballots are removed from storage, the handling of the ballots shall be witnessed by not less than two members of the manual audit team not of the same political party or organizational affiliation.
 - (7) The manual audit shall be concluded when a majority of the team members so decide.
 - (8) The manual audit shall not be considered a recount pursuant to the election contest provisions of the law; provided that the results of the audit shall be filed in the office of the chief election officer and shall be considered a public record.
- (b) In the event discrepancies are found in the audit, the chief election officer may authorize an expanded audit to determine the extent of misreporting within the system.
- (1) The chief election officer may utilize official observers, election day officials, county or

state election employees, or other designated individuals as part of the expanded audit.

- (2) The chief election officer will consult with the initial manual audit team to determine how best to continue the audit.
- (3) The chief election officer will determine when the expanded audit is concluded.
- (4) The results of the expanded audit will be filed with the Office of Elections.

(c) In lieu of relying on the initial results from an electronic voting system, the chief election officer may count ballots or voter verifiable paper audit trails by hand or with a mechanical tabulation system, as defined in HAR §3-171-1, or a combination thereof.

- (1) Any counting of ballots or voter verifiable paper audit trails, through the use of a mechanical tabulation system, will conform to the marking and vote disposition rules relating to the voting system that the ballot or voter verifiable paper audit trails were associated with.

(A) As the marksense ballot voting system, is a mechanical tabulation system, and the ballots were intended to be read by the devices associated with that system, the chief election officer, will to the extent possible, utilize those voting devices of the system that did not experience misreporting problems;

(B) In the event there are inadequate voting devices that did not experience misreporting problems, the chief election officer, in consultation with the official observers, may utilize voting devices that have been repaired to the satisfaction of the chief election officer.

- (2) Any counting by hand of ballots or voter verifiable paper audit trails will conform to the marking and vote disposition rules relating to the voting system that the ballot or voter verifiable paper audit trails were associated with.

- (A) Ballots that were marked for use by a marksense ballot voting system, will be counted in accordance with those rules associated with that system to the extent reasonably possible. Any hand count of marksense ballots will not utilize any statute or rules associated with the paper ballot voting system, as those marking instructions and vote disposition rules are uniquely different from those statutes and rules associated with other voting systems.
- (B) Voter verifiable paper audit trails from a direct recording electronic device voting system will be counted in accordance with the ballot selections indicated on them.

(d) The chief election will, to the extent possible, resolve any misreporting problem, prior to the end of the contest period stated in HRS §11-173.5, in the case of a primary, or special primary election, or HRS §11-174.5, in the case of a general, special general, or special election. Any resolution of a misreporting problem shall be documented and filed with the Office of Elections.

(e) The chief election officer or the clerk shall conduct a pollbook audit to verify the number of precinct ballots received in the counting center. The pollbook audit shall be conducted prior to the end of the contest period stated in HRS §11-173.5, in the case of a primary, or special primary election, or HRS §11-174.5, in the case of a general, special general, or special election.

(1) The pollbook audit team shall count the number of signatures in each pollbook and compare the number with the precinct turnout as produced by the computer to determine overages and underages.

(2) An overage shall exist when the number for the precinct turnout, according to the computer, is greater than the turnout the pollbook indicates. If the precinct turnout, according to the computer, is less than the turnout the pollbook indicates this shall constitute an underage. [Eff 01/09/10; comp AUG 13 2017]
