Mr. Joe Whelan
General Manager
Waste Management of Hawaii
92-460 Farrington Highway
Kapolei, Hawaii 96707

Subject: Foul Odors, Dust and Noise

Dear Mr. Whelan:

I have been contacted by several residents and businesses voicing their concern with the recent increase in activity on the face of the mountain. These Ko Olina residents, guests and employees have complained about foul odor, blowing dust, excessive noise and the overall unsightliness of the landfill. As the Ko Olina Community Association, the health of our members, guest and employees is of utmost importance to us.

Please provide the Ko Olina Community Association with an explanation as to the reason for the increased foul odor, dust and excessive noise. We would also like to know of any remedies planned for these issues.

Mahalo,

Ko Olina Community Association, Inc.

A handwritten signature in black ink, appearing to read "Ken Williams", is written over the typed name.

Ken Williams
