RE: Waimanalo Gulch Municipal Solid Waste Landfill
Missed Reading Notification
Covered Source Permit No. 0489-01-C

As requested, this letter provides independent notification of the information previously reported in the semi-annual Report dated August 30, 2011.

As reported, in early August 2011, Waste Management of Hawaii, Inc. (WMH) identified suspect readings from recent wellhead monitoring and undertook an investigation. On August 26, 2011, the WMH employee admitted that he had failed to take numerous wellhead readings and instead fabricated those readings. WMH has terminated that employee and is undertaking further investigation to determine the scope of noncompliance. Therefore, the values reported for the 6-month average and maximum gauge pressures, oxygen concentrations, and temperatures are based on only the values for those wells and sampling events that were actually measured. The semiannual report does not include data that WMH reasonably suspects or has confirmed is not actual data taken for the wells.

Following completion of our investigation, a copy of our findings will be shared with your office. If you have additional questions please contact me at 808-668-2985.

Respectfully,

Justin H. Lottig
Environmental Protection Manager.
Waste Management of Hawaii Inc.
