Employment: 1975- Present: President, Rana Productions Ltd.

Professional Experience:

Over the past 18 years I have worked as a terrestrial vertebrate biologist in Hawai'i and the Tropical Pacific.

Between 1986 and the present I have conducted over 250 faunal surveys for the USFWS, the State of Hawaii, and numerous private concerns, on all of the main Hawaiian Islands as well as on Midway, Nihoa, Necker and Kure Atolls. I am also experienced in the radar tracking of seabirds and bats as well as ultrasonic censusing of bats. I have authored over 20 peer reviewed papers, one book and over 200 technical reports on birds and mammals.

I have a good working knowledge of USFWS, State of Hawai'i, and the Federal Department of Transportation environmental laws and regulations. I am experienced in preparing Biological Assessments (BA's) required under Section "7" of the Endangered Species Act (ESA) and in negotiating mitigation under Section "7" of the ESA with the USFWS. I also have experience in preparing Natural Resource Management Plans (NRMP's) and DoD, Integrated Natural Resource Management Plans (INRMP's) as well as State of Hawai'i Section 343 Environmental Assessments.

Over the past 10 years I have functioned as the senior biologist on several large projects, responsible for overseeing all biological work performed by scientists covering the full spectrum of biological disciplines from geology to wetlands and marine sciences. I have also performed as the lead biologist representing federal clients before state and federal regulatory agencies on complex projects like the Federal Highways Administration, Saddle Road Project.

A 22 page list of my publications, and technical reports is available upon request.

Related Activities:

- US Fish & Wildlife & DLNR, Newell's Shearwater Working Group.
