

BERT R. TOBA, P.E.
Senior Vice President
R. M. Towill Corporation

YEARS EXPERIENCE 33

EDUCATION: B.S., Civil Engineering, 1974

ACTIVE REGISTRATION: Civil Engineering, Hawaii
1978

PROFESSIONAL EXPERIENCE:

Mr. Toba has held responsible positions throughout his career within the Engineering, Land Surveying and Construction Management fields. His experience includes resort development planning, infrastructure master planning, engineering designs, surveys and construction management on a multitude of projects. Types of projects have included shopping centers, airports, hotels, schools, office and residential condominiums, residential and light industrial subdivisions, medical facilities, parks and recreation facilities, utilities, drainage facilities, and highways.

His professional career began with the firm of Norman Saito Engineering Consultants, Inc., where he held positions in both the Land Surveying and Engineering Departments of the Company. His experience included land surveying, development planning, construction inspection, supervision of the company's survey field crews, and design of condominiums, subdivisions and water, drainage, and sewer systems.

In 1989, he opened the Maui office of Sato & Associates, Inc. where he managed the operation for 21 years. With a staff of 14 employees, his office provided a full complement of engineering services to both government and private clients.

At R. M. Towill Corporation, he serves as operations manager and oversees all aspects of the company operations, including the management of all departments (Accounting, Construction Management, Engineering, Environmental/Wastewater, Surveying and Planning). Other duties encompass the management of projects and personnel, production, manpower, scheduling, quality control, contract negotiations and client development.
