137 ATC – rev plans

Mr. Jacob Freeman, P.E.
CDF Engineering LLC
P.O. Box 2985
Wailuku, HI 96793
Email: jake@cdfengineers.com

Dear Mr. Freeman:

Subject: Approval to Construct
Revised 20,000 GPD Wastewater Treatment Plant
Pulehunui Heavy Industrial Subdivision
Puunene, Maui
File No. 137

The Department of Health (Department) acknowledges receipt of your revised construction plans on February 20, 2018.

The plans were revised to use existing injection wells for effluent disposal in place of leachfields. The Safe Drinking Water Branch has approved the use of the existing injection wells (permit number UM-2933) for wastewater disposal from the subject plant. Therefore, the revised plans are approved for construction.

An inspection of the completed project is required to verify the information provided in the submittals. Please notify our office at least three weeks in advance to schedule a final inspection of the completed project.

Should you have any questions, please contact April Matsumura of at (808) 586-4294.

Sincerely,

A handwritten signature in blue ink, appearing to read "Sina Pruder".

SINA PRUDER, P.E., CHIEF
Wastewater Branch
