Subject: [EXTERNAL] SP92-380 Puunene Quarry Application: Correct Exhibit 6 MPC Agenda

Aloha Ariana,

I found that the agenda contained in Exhibit 6 of our SLUC transmittal did not include and updated Documents Received After Posting link that leads to the Ka Pa'akai Analysis. It was an old agenda that I sent in the transmittal. The old link only contains a 26-page document when it should contain a 160-page document.

The correct agenda that was used for the 11/25/25 meeting is attached, would you be able to replace the old one in our transmittal or add it as revised materials?

Mahalo,

Brailey Gonsalves
