Shareholder's Instructions for Schedule K-1 (Form N-35)

Shareholder's Share of Income, Credits, Deductions, etc. (For Shareholder's Use Only)

(Section references are to the Internal Revenue Code (IRC), unless otherwise noted.)

General Instructions

Basis in Corporate Stock.—You are responsible for maintaining records to show the computation of your basis in stock of the corporation. Schedule K-1 provides you with information to help you make the computation at the end of each corporation tax year.

The initial basis of a resident shareholder in the stock of an S corporation and in any indebtedness of the corporation owed to the shareholder shall be determined in the manner provided under the IRC. The initial basis shall be determined as of the last to occur of the following:

1. The shareholder last became a resident of Hawaii;
2. The shareholder acquired the stock or the indebtedness of the corporation; or
3. The corporation became an S corporation.

The initial basis of a resident shareholder in the stock and indebtedness of an S corporation shall be adjusted after the above date in the manner and to the extent required by section 1011 except that, with respect to any taxable period during which the shareholder was a resident of Hawaii, any modification made (other than for income exempt from federal or State taxation) to the shareholder's income from the S corporation shall be taken into account; and any adjustments made pursuant to section 1367 for a taxable period during which Hawaii did not measure S corporation shareholder income by reference to the corporation's income shall not be taken into account. The basis of a resident shareholder in the stock of an S corporation shall be reduced by the amount allowed as a loss or deduction, not to exceed the combined adjusted basis of the shareholder in the stock and indebtedness of the corporation.

The initial basis of a nonresident shareholder in the stock of an S corporation and in any indebtedness of the corporation to the shareholder shall be zero. The initial basis shall be determined as of the last to occur of the following:

1. The shareholder acquired the stock or indebtedness of the corporation;
2. The corporation became an S corporation; or
3. The shareholder last became a nonresident of Hawaii.

The initial basis of a nonresident shareholder in the stock and indebtedness of an S corporation shall be adjusted after the above date in the manner provided in section 1367, except that adjustments to basis shall be limited to the income attributable to Hawaii and taxable to the nonresident shareholder for Hawaii income tax purposes. In computing income attributable to Hawaii, any modification made for income exempt from federal or Hawaii taxation shall be taken into account.

Nonresident Shareholders.—Shareholders who are not Hawaii residents will be asked by the S corporation to complete and sign an agreement (Schedule NS) stating that the shareholder agrees to file a Hawaii net income tax return, make timely payments of taxes due, and to be subject to personal jurisdiction in the State of Hawaii for purposes of the collection of unpaid income tax. Shareholders for whom an agreement is not obtained and filed by the S corporation on its timely filed return are subject to withholding by the S corporation of 11% of the shareholder's income attributed to Hawaii. This amount, shown on line 16o, may be claimed as a credit on a nonresi-

dent Hawaii net income tax return (Form N-15) subsequently filed by the shareholder or may take the place of filing a Hawaii return by the nonresident shareholder. No credit will be allowed for this amount until the S corporation has filed and paid the amount due. Shareholders for whom an agreement is obtained and filed as required may be included in a composite net income tax return filed on behalf of an S corporation's nonresident shareholders.

Errors.—If you believe the corporation has made an error on your Schedule K-1, notify the corporation and ask for a corrected Schedule K-1. Do not change any items on your copy. Be sure that the corporation sends a copy of the corrected Schedule K-1 to the Hawaii Department of Taxation.

Specific Instructions

Name, Mailing Address, and Identifying Number.—Your name, mailing address, and identifying number, the corporation's name, address, and identifying number, and item A should have been entered. The corporation completes item B, if applicable.

Lines 1 through 28

If you are an individual shareholder, take the amounts shown in column (b) and the total sum of amounts shown in columns (b) and (c) and enter them on the appropriate worksheet and/or lines of your tax return. If you are an estate or trust, report the amounts shown in columns (b) and/or (c) as instructed on Form N-40, Hawaii Fiduciary Income Tax Return.

The amounts on lines 1 through 28 show your pro rata share of ordinary income, loss, deductions, credits, and other information from all corporate activities. These amounts do not take into account limitations on losses or other items that may have to be adjusted because of your adjusted basis in stock and debt in the corporation, the at-risk limitations under section 465, the passive activity limitations of section 469, or any other limitations that must be taken into account at the shareholder level in figuring taxable income (e.g., the section 179 expense limitation (further limited for Hawaii purposes to \$25,000)). These limitations are discussed in the instructions for federal Schedule K-1 (Form 1120S). If you are an individual shareholder and your share of pro rata items are affected by any limitations, adjust the amounts before you enter the amounts on your return.

Caution: If you have losses, deductions, credits, etc., from a prior year that were not deductible or useable because of certain limitations, such as the at-risk rules, they may be taken into account in determining your income, loss, etc., for this year. However, do not combine the prior year amounts with any amounts shown on this Schedule K-1 to get a net figure to report on your return. Instead, report the amounts on your return on a year-by-year basis.

Line-by-Line Instructions

For Form N-11 filers, most of your pro rata share of ordinary income, loss, deductions, etc. are included in federal adjusted gross income (federal AGI). If the total sum of the amounts in columns (b) and (c) of your Hawaii Schedule K-1 (Form N-35) and the amounts in your federal Schedule K-1 (Form 1120S) are different, make the necessary adjustments in the Hawaii Additions Worksheet and/or Hawaii Subtractions Worksheet of the Form N-11 Instructions.

Income

Line 1. Ordinary income (loss) from trade or business activities.—The amount reported on line 1 is your share of the ordinary income (loss) from trade or business activities of the corporation. If the amount on line 9 is from a rental activity, the section 1231 gain (loss) is a passive activity amount. Likewise, if the amount relates to a trade or business activity and you did not materially participate in the activity, the section 1231 gain (loss) is a passive activity amount. These deductions are not taken into account in figuring your passive activity loss for the year.

Line 14. Other deductions.—Amounts on line 14 are other deductions not included on lines 11, 12, and 13. The corporation should give you a description and your share of each of the expense items. Include the amount of deduction on the applicable line of your return. Refer to the federal Shareholder's Instructions for Schedule K-1 (Form 1120S) for more information.
