## **DEPARTMENT OF TAXATION ANNOUNCEMENT NO. 2018-07**

### **RE: Relief for Taxpayers Affected by Heavy Rains and Flooding beginning April 14, 2018 in the City and County of Honolulu**

As a result of the heavy rains and flooding from storms on April 14, 2018 that caused extensive damage in the City and County of Honolulu, Governor David Y. Ige signed a supplemental emergency proclamation on April 18, 2018, designating the City and County of Honolulu as a disaster area.

This Tax Announcement describes various forms of relief that are available to taxpayers who were affected by the disaster.

#### **I. MARK TAX RETURNS "2018 HONOLULU FLOOD RELIEF"**

The Department of Taxation (Department) recognizes that taxpayers affected by the disaster may have difficulty meeting their tax obligations. Accordingly, the Department will consider requests by affected taxpayers for extensions to file and pay Hawaii taxes and for waivers of penalties and interest on a case-by-case basis. The relief provided by this section applies to all taxes that the Department administers, including general excise, transient accommodations, net income, tobacco, and liquor.

All Hawaii tax returns in which relief is requested in connection with the disaster should be clearly marked "2018 Honolulu Flood Relief" on the top center of the return. Do not write "2018 Honolulu Flood Relief" in the "DO NOT WRITE IN THIS SPACE" area in the upper right corner of any return. Taxpayers who were affected by the disaster, but whose address on file with the Department is not in Honolulu county, should also include a brief statement as to how the disaster adversely affected their ability to meet their tax obligations.

#### **II. CASUALTY LOSSES**

For purposes of Hawaii income tax law, taxpayers may claim all of the casualty loss deductions allowed by section 165 of the Internal Revenue Code of 1986, as amended. Please refer to Internal Revenue Service Publication 547 for more information. Casualty losses on business property are deductible in full. The first \$100 of eligible unreimbursed casualty losses

on nonbusiness property are not deductible. The remaining loss is deductible to the extent it exceeds 10 percent of the taxpayer's Hawaii adjusted gross income. The following options are available after determining the amount of losses:

1. In the event that the President of the United States of America issues proclamation of a natural disaster, taxpayers may elect to claim a casualty loss deduction on their 2017 income tax returns, instead of on their 2018 income tax returns, for losses from the federally declared disaster (an amended return may need to be filed if this option is chosen);
2. Taxpayers may elect to deduct the losses on their 2018 income tax returns; or
3. If taxpayers' casualty losses are more than income, a net operating loss may result. A net operating loss may be used to lower taxes in an earlier year, resulting in a refund for taxes already paid. If properly elected, a net operating loss may be used to lower taxes in a later year. A taxpayer does not have to be a business to claim this benefit; all taxpayers may claim this carryback or carryover net operating loss.

### **III. GENERAL EXCISE TAX EXEMPTION FOR INSURANCE PROCEEDS RECEIVED BECAUSE OF A NATURAL DISASTER**

Pursuant to section 237-24.7(6), Hawaii Revised Statutes, amounts received under property and casualty insurance policies for damage or loss of inventory used in a trade or business located within an area declared a disaster by the governor are exempt from general excise tax. Please refer to the instructions for Forms G-45 and G-49 for more information.

Tax forms and information are available on the Department's website at [tax.hawaii.gov](http://tax.hawaii.gov). Additional information is available by calling the Technical Section during business hours at (808) 587-1577, or by e-mailing [tax.technical.section@hawaii.gov](mailto:tax.technical.section@hawaii.gov).
