## **COUNCIL ON REVENUES**

STATE OF HAWAII  
P.O. BOX 259  
HONOLULU, HAWAII 96809-0259

March 12, 2021

The Honorable David Y. Ige  
Governor, State of Hawaii  
Executive Chambers  
State Capitol, Fifth Floor  
Honolulu, HI 96813

Dear Governor Ige:

The Council on Revenues (“Council”) held a meeting to forecast revenue growth for the State General Fund on March 8<sup>th</sup>, 2021. The Council increased its forecast to -2.5% from -6.5% for fiscal year (FY) 2021. For FY 2022, the Council lowered its forecast for FY 2022 to 4.0% from 6.0%. The Council forecasted that General Fund tax revenue growth will fall to 4.0% from 6.0% in FY 2023, remain at 4.0% in FY 2024, and decrease to 3.5% from 4.0% for FYs 2025-2027.

When the Council met, it emphasized that their forecast assumed the passage of the \$1.9 trillion Federal stimulus bill (the American Rescue Plan Act). The Council’s forecast also assumed that Hawaii’s economy will continue to open up steadily without significant regulatory restrictions and shutdowns affecting businesses and individuals, and travel restrictions will continue to be relaxed and return to relatively normal in the near future.

The Council’s FY 2021 forecast considered and discussed the fiscal impacts of the delay in the income tax filing deadline from April 2020 to July 2020, which resulted in a shift of approximately \$308 million from FY 2020 to FY 2021 and the adverse impact on tax collections due to businesses affected by the 2020 pandemic shutdown and restrictions. The Council acknowledged that economic activity continues its upward trajectory since the last shutdown in September 2020. In addition, the Council discussed the impacts of the American Rescue Plan Act that was expected to be passed in March 2021 and the taxation of benefits received from Unemployment Insurance and the Pandemic Unemployment Assistance (PUA) program.

The Council acknowledged that the COVID-19 virus continues to represent a serious risk to public health and the State's economy. Future tax revenues are highly dependent on the trajectory of the virus, new variants, the availability and efficacy of vaccines, rapid low-cost testing, and the State, County, and Federal governments' ability to manage health risks while at the same time supporting economic activities. Given the prominent role of tourism in Hawaii's economy, the number of visitors to the State will have major impacts on the economy and tax collections. The Council recognized that international visitor arrivals may lag domestic U.S. visitor arrivals since certain other countries are behind the U.S. in their vaccination programs.

The new forecasts for the State General Fund tax revenues FY 2021 through FY 2027 are shown in the table below.

### General Fund Tax Revenues
